

## SITUATION OVERVIEW

Niger continues to face critical humanitarian needs caused by the consequences of Boko Haram-related violence in the Diffa region and the high level of vulnerability of people affected by recurrent food insecurity and malnutrition crises as well as seasonal floods and epidemics. At a crossroad between Western African countries and Libya, Algeria and Europe, Niger has also become a transit hub for hundreds of thousands of migrants in search of better economic opportunities. Every year thousands of them find themselves stranded in Niger and in dire need of humanitarian assistance.

In 2017 the Humanitarian Response Plan (HRP) is seeking 271 million, including 139 million for the Diffa region alone. The HRP targets 1.5 million people out of a total population in need of 1.9 million, or 10 percent of the population. In Diffa, 48 percent of the population, including displaced people and the local population, are in need of humanitarian assistance. In 2016, projects listed in the HRP were funded at 54 percent that is to say \$139 million were mobilized out of a requirement of \$260 million.

### HRP FUNDING STATUS FROM 2011 TO 2016

## STRATEGIC OBJECTIVES

- 1 Track and analyse risk and vulnerability, integrating findings into humanitarian and development programming.
- 2 Support vulnerable populations to better cope with shocks by responding earlier to warning signals, by reducing post-crisis recovery times and by building capacity of national actors.
- 3 Deliver coordinated and integrated life-saving assistance to people affected by emergencies.
