

Key Figures

536,000

drought displacements
since November 2016

72,000

arrivals to Mogadishu
during March 2017

70,000

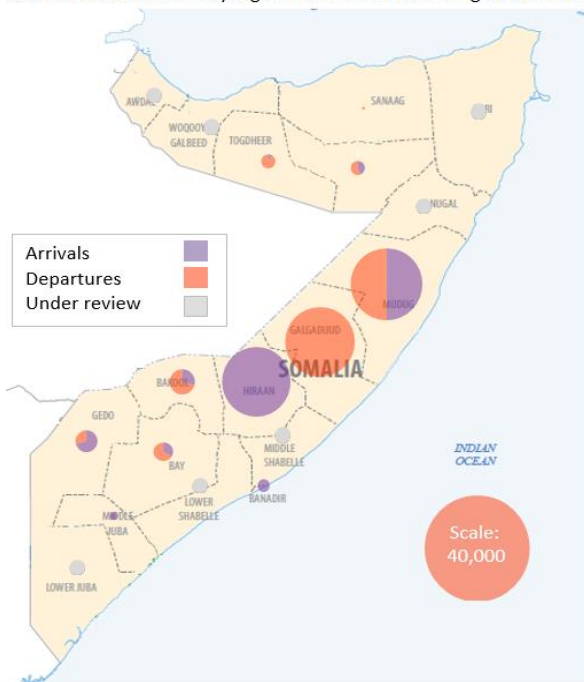

arrivals to Baidoa
during March 2017

278,000

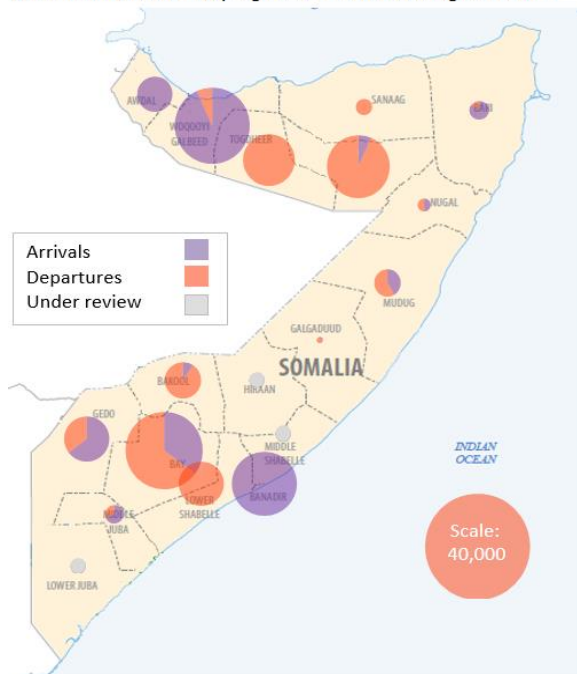

drought-displaced
during March 2017

The illustrative maps below show the progression of arrivals and departures over each of the 5 months December to March

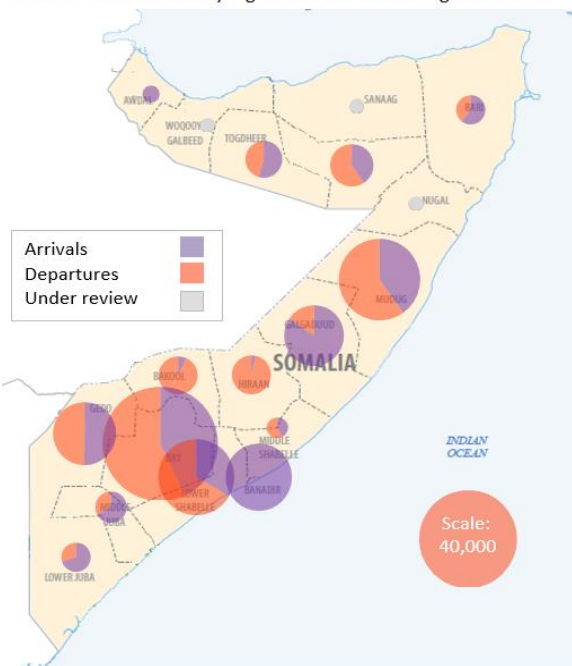

Map showing of drought-related movements monitored by the UNHCR PRMN network by region in the 2 months ending 31 Dec 2016

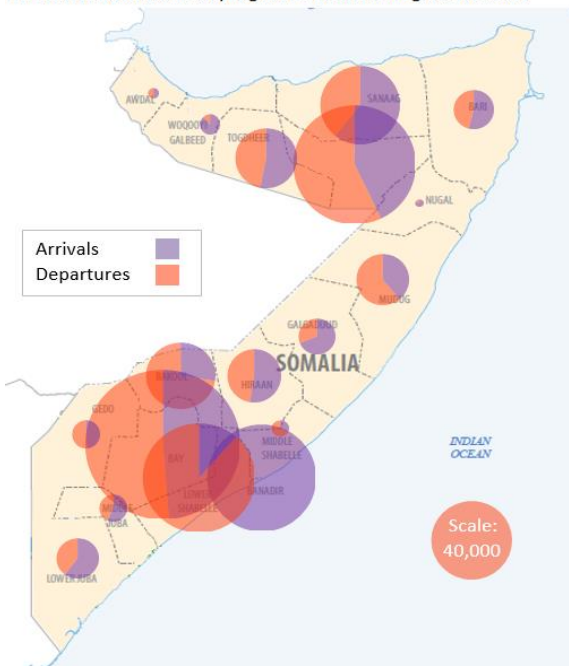

Map showing of drought-related movements monitored by the UNHCR PRMN network by region in the month ending 31 Jan 2017

Map showing of drought-related movements monitored by the UNHCR PRMN network by region in the month ending 28 Feb 2017

About PRMN

The PRMN (Protection & Return Monitoring Network) is a UNHCR-led project which identifies and reports on displacements (including g returns) of populations in Somalia. The network also identifies and reports on protection risks and incidents underlying such movements. Only figures collected by PRMN are reported above. Not all displacements in Somalia are captured.

This report should be read in conjunction with the [Notes on PRMN Methodology](https://goo.gl/9uP6MJ) (<https://goo.gl/9uP6MJ>) which outline the approach and certain limitations.

UNHCR is grateful for the generous contributions of donors who have directly contributed to the UNHCR Somalia operation in 2017
