

The Shelter Sector priority remains to ensure adequate, affordable and sustainable housing options, primarily for refugees living in urban, peri-urban and rural areas, but also for vulnerable host community members. The Sector continues to move towards support to refugees in urban locations being based upon the inter-agency vulnerability analysis of families.

The aim is to improve access to adequate dwellings through maintenance or improvement to the standard of shelters across the region. Living conditions within temporary settlements and poor urban areas with high ratios of displaced population and vulnerable groups will continue to be improved. Upgrading of sub-standard housing will be undertaken through an integrated approach, involving multiple sectors.

For refugees in camps, the Sector focuses on rehabilitation efforts to improve camp infrastructure and upgrade shelters, contributing to sustainable living.
