### Demographics

### DRC Complaint Response Mechanism

During the Month of February DRC CCCM received one formal letter of complaint in STM regarding WASH infrastructure which we are seeking to address.

DRC is highly committed to listening to the IDP communities we serve and to international commitments on accountability as a result DRC CCCM will be focusing on improving our Complaint Response Mechanism (CRM) over the coming months. Through the month of March we will be holding focus group discussions with our camp based staff and IDP communities for their input on how best to improve our CRM system. Updates will follow in next month's report.

### Camp Women's Association Update

DRC is working to establish Camp Women's Associations (CWAs) in its camps this year. It is our vision that the CWAs will act as a semi-formal source of female leadership in the camps that can provide a counterweight to the influence of the CMCs. Approximately 10 women will be identified to represent their communities during monthly meetings with DRC CCCM staff. As they raise camp priorities, CCCM will provide support to address these issues with a community-driven approach, raising concerns through appropriate avenues as needed.

STM is one of four camps where a CWA has already been established. Through a snowball sampling method, DRC staff identified 11 women who are considered well-respected community members who are highly involved in camp-life. The first meeting of the STM CWA is scheduled for 16 March. Please contact Courtney Cox (at courtney.cox@drcmm.org) if your agency/sector/cluster would like to collaborate with the STM CWA and we will be happy to facilitate meetings, joint assessments, trainings, and other activities as needed.
