

<p><b>Highlights</b> Protection monitoring activities are ongoing as well as support to the women's group.</p> <ul style="list-style-type: none"> <li>• <b>Other update on activities and issues</b> <b>PROTECTION:</b> protection monitoring activities are ongoing as well as support to the women's group. <b>WASH:</b> IDPs report almost most latrines are full, concerns over open defecation. Drainage line often filled with sand. Hygiene promotion and regular monitoring. Without funding, the WASH component is not able to function as intended. There is no disposal system in place for latrine waste and open defecation is very evident. There is no fuel or chemicals to run the water treatments system and repairs are required to one of only 2 pumps available. The volunteers have not received wages for 2 months and although currently understanding, they grow more discontent at each visit and unwilling to perform the tasks requested of them. The overall hygienic situation in the camp is poor and has the potential to impact on health if ready solutions are not implemented ASAP. This cannot be achieved without funding.</li> <li>• <b>Follow up on former issues</b></li> </ul> <p>NTR</p>	<ul style="list-style-type: none"> <li>• <b>Follow up, challenges and advocacy</b></li> </ul> <p>WASH – DRC plan latrine renovation in line with new WASH 2014/2015 project, awaiting final agreement. DRC investigating solutions for on site desludging</p>
