## 8. Ohn Taw Gyi South IDP Camp

Population: approx. 13,000 IDPs

<p><b>Activities and issues:</b></p> <p><b>WASH:</b> There is a high number of reported repairs required for the camp and a contract is being prepared to complete initial repairs. Volunteer's numbers will increase from 28 to 60 for which over 500 applications have been received. A large group of approximately 60 people addressed the DRC Hygiene Promotion team and complained that DRC shouldn't hire ex Oxfam. It has been suggested by the CCCM that a lucky draw system should be incorporated but this does not guarantee that the appropriate people are used in the hygiene promotion team. Further talks involving the community, CCCM and protection will be required to resolve the issue to prevent issues arising.</p> <p><b>FOLLOW UP ON FORMER ISSUES:</b> NTR</p>	<p><b>Follow up, challenges and advocacy:</b></p>

## 9. Sin Tet Maw IDP Camp

Population: approx. 3,000 IDPs

<p><b>Highlights</b></p> <ul style="list-style-type: none"> <li>- It was reported that IDPs feel comfortable going to a nearby Rakhine village and having some livelihood opportunities.</li> <li>- Shelters are in need of maintenance and that even some have become dangerous for children;</li> <li>- Access to health services is still limited despite the mobile clinics that visit the camps every month.</li> </ul> <p>• <b>Other update on activities and issues</b></p> <p>CAMP MANAGEMENT: No updates.</p> <p>SHELTER: It was reported that most of the shelters are in need of repair works and that some of them are too dangerous for children as they could easily fall. Moreover, the showers in the camp have no doors and, as a result, women do not feel comfortable going there. It was observed that some of the showers have been used as by some IDPs. There are kitchens in the camp, however, these are in need of repair works and IDPs who moved from other camps to Sin Tet Maw are temporarily staying there. It was also reported that the Warehouse (constructed by DRC) is in need of maintenance and that food cannot be stored there as it is in very bad condition.</p> <p>WASH: Some weeks ago, IDPs stated they need more water especially in eastern and western parts of the camp. Hence water is being pumped from Sin Tet Maw village. SCI is working regularly in their activities as latrine maintenance/ construction, drinking water irrigation from near the village, road renovation between shelters and latrines.</p> <p>HEALTH: MHAA and State Health Mobile clinic cover medical services. However, it was reported that neither have they medicines nor medical equipment to treat diseases.</p> <p>FOOD: WFP/SCI distributed food rations to the IDPs with delays.</p> <p>EDUCATION: SCI is running the elementary school in the camp. IDPs were informed that their children will have to attend the same class as last school year due to the lack of examinations.</p> <p>NON-FOOD ITEM: the IDPs asked for provision of blankets and winter clothes.</p> <p>PROTECTION: Women and girls do not feel comfortable taking showers in the shower rooms as these have no doors and are being used as latrines by some IDPs. As a result, IDPs are taking showers inside their shelters and this is causing stagnant water underneath and deterioration of the shelters. Moreover, the IDPs do not have proper access to health care as there is a lack of a well-equipped health center inside the IDP camp or nearby. The bad conditions of the shelters in the camp are a serious concern for the safety of children and other persons with specific needs such as elderly, disabled and pregnant women.</p> <p>It was also reported that an IDP was attacked and injured by a person from STM Village. The reasons for such attack are unknown. The incident was reported to the police.</p> <p>NUTRITION: Regular activities by SCI on-going.</p> <p>CHILD PROTECTION: Regular activities by SCI on-going.</p> <p>LIVELIHOOD: No updates</p> <p>• <b>Follow up on former issues</b></p> <p>The DRC Protection Team followed up on health, shelter, and WASH but unfortunately there has been no major improvement in the situation.</p>	<p>• <b>Follow up, challenges and advocacy</b></p> <p>DRC Protection has referred to the PWG the situation of IDPs without shelters in the camp. The Protection Team is following closely on the situation of these families and any possible protection concerns.</p> <p>DRC Protection will follow up with WASH partners on the repair works of the showers in the camps for the women and will check again with UNHCR shelter on the maintenance of the shelters and warehouse in the camp.</p>

#### 10. Ah Nauk Ywe IDP Camp

Population: approx. 3,900 IDPs
