

committees met for handover from UNICEF to LWF. LWF provided school kits for LWF TLS.

- NON-FOOD ITEM: Camp residents stated that they need NFI as it has been long since they last received them.
- PROTECTION: In week 1 DRC Protection couldn't access the camp, despite a protection issue which needed to be addressed due to an incident. From week 2 regular protection activities ongoing: protection monitoring, IPA, recruitment of women's group facilitators.
- NUTRITION: ACF, SCI, and MAHH activities are running regularly. ACF and SCI did joint screening. SCI did BCC and cooking demonstration focused on nutrition needs of children > 5 years, distributed ferrule sulphate medicine to pregnant women, collected a pregnant women list, did counselling and measuring body weight of pregnant women. ACF did monitoring of child malnutrition and provided treatment for malnourished children two days per week in Dar Paing nutrition centre. ACF also provided psychosocial support for mothers and children. MHAA gave ration to malnourished children.
- CHILD PROTECTION: SCI is running all CFS and regular CP activities. No additional update.
- OTHER ISSUE: Two foreigners visited sector 4, reported from Newsweek Magazine. Township Administrator picked up camp profile update from CMC to put on the signboard. One donor from Saudi Arabia collected a child-headed HH list.

DRC awaiting update from NFI Cluster re approval from RSG to allow distribution.

#### 14 - Dar Paing Village

- INFRASTRUCTURE: In July, DRC CCCM (QIP) had distributed solar panels to female HH and HH affected by fire. QIPs activities included providing solar panels monitoring.
- PROTECTION: Regular protection monitoring and support to women's group on-going.

#### 15 - **Zaw Bu Gyar Village** (estimated 340 residents)

##### Issue

- WASH: IDPs want to request latrines and other relevant items. ACF distributed ceramic filters for all households last week.
- FOOD: A local NGO (Myat Say Ta Nar) distributed 8 items of food rations to all HH in week 1.
- HEALTH: Govt health mobile clinic is opening every Monday, normally from 10:00am to 12:00pm by MHAA and MRCS staff. Most of villagers want to be screened for malaria with MHAA, but they have no provisions for malaria screening.
- PROTECTION: Regular protection monitoring and support to women's group ongoing.
- NON-FOOD ITEMS: Most of villagers request clothes and shoes for winter season especially.
- LIVELIHOODS: ICRC provided livelihoods cash grants. DRC business grant activities for Female Headed Households ongoing (in complement to and in close coordination with ICRC).
- OTHER ISSUE: DRC QIPs activities included meeting with the community for possible QIP Project in the village community.

##### Status

ACF – have taken over WASH and will address community WASH needs.

Reported to Health Cluster.
