| 3. Coverage over the Christmas and New Year period. | <ul style="list-style-type: none"> Chairpersons explained that <i>most</i> agency staff will take leave during Christmas and New Year period and there might be some potential gaps for emergency referrals. To run the programs smoothly, the systems would be the same like Thingyan holidays and election periods. Requested partner to nominate the focal points who will be in office/contact person. | Partners will share. | ASAP. |
| 4. CCCM Information Management <ul style="list-style-type: none"> IMWG and Monitoring tool. Update on JIPS support. | <ul style="list-style-type: none"> IOM Information Management officer from Yangon explained the need to have common CCCM information management and monitoring tools that works across camp management agencies and can produced quantifiable analysis for response and planning. Request forum for inputs and comments to organize information management working group (IMWG), which can also support the ICCG. Partners agree to have an IMWG in January 2016 and Chairpersons requested agencies to nominate focal point that can feed into the common indicators discussion. In the meantime IOM will work on a draft tool that can guide the discussion in January. . DRC gave an update about Joint IDPs Profiling System (JIPS). Participants suggest having Government camp focal points for JIPS. Additionally participants recommended that the Cluster invest in a pre-survey information campaign to ensure that camp populations are informed properly. Participants also query to what the end will the data be used? It was clarified, data will be utilized as a baseline for multi sector programming and inter cluster planning. WaSH suggested to look at data from the “Polio Campaign” (<5 yrs old) and the WaSH water filter assessment data, both which could enrich the baseline. | Partners will share. | |
