

Pauktaw Township

18 - Sin Tet Maw IDP Camp (estimated 3,000 residents)

Issue

- **CAMP MANAGEMENT:** No updates.
 - **SHELTER:** UNHCR discussed with IDPs re damage of the majority of the walkways, which can now be repaired by UNHCR. IDPs reported many shelters damaged and in need of repairs - particularly problematic during heavy rains. IDPs also reported that most shelter floors are damaged, which they repaired by themselves; more damage expected at end of the rainy season.
- **WASH:** Salty water reported in many wells and hand pumps as a result of heavy rains and flooding. Now SCI is distributing drinking water but IDPs state need more and would like to have more water points in eastern and western parts of the camp. SCI is working regularly in their activities as latrine maintenance / construction, drinking water irrigation from near the village, road renovation between shelters and latrines.
- **HEALTH:** MHAA and State Health Mobile group opened clinic on 10-11 August and saw 150 patients. They requested to check sputum for tuberculosis with laboratory technicians when opening clinic.
- **FOOD:** WFP/Save distributed rations to all HH in week 1.
- **EDUCATION:** SCI is working with 9 volunteer teachers, 2 helpers, and one watchman in TLS. IDP Parents report that government did not recommend the students to move up according to exam results and they now have to attend the same classes as last school

Status

Concerns forwarded to Shelter Cluster.

Concerns raised with UNICEF Education Cluster lead.

| <ul style="list-style-type: none"> ➤ CAMP MANAGEMENT: No updates. <ul style="list-style-type: none"> ▪ SHELTER: No updates. ➤ WASH: IDPs report almost all latrines are full, concerns over open defecation. Drainage line full with sand. Hygiene kits distribution (1086 kits in total) finished in August. Construction of Distribution Centre at KNP Jetty finished. SCI handed over to DRC the tented area they used to manage. ➤ HEALTH: MHA clinic opened one time per week. State health group and MRCS administered polio vaccinations and ATT for pregnant women on 19th August. ➤ FOOD: WFP/Save delivered food rations to 1095 households in week 1. Some new IDPs did not have in distribution list. They need to get food rations right now. ➤ EDUCATION: No updates. ➤ NON-FOOD ITEM: No updates. ➤ PROTECTION: Regular protection monitoring, IPA and support to women's group ongoing. ➤ NUTRITION: No updates. ➤ CHILD PROTECTION: No updates. | <p>WASH – DRC plan latrine renovation in line with new WASH 2014/2015 project, awaiting final agreement.</p> |

26 - Kyauk Pyin Seik Village (estimated 575 residents)

- PROTECTION: Regular protection monitoring and support to women's group on-going.

The Monthly record represents a snapshot of the week's situation in the camps and villages where DRC works and aims to capture the issues relevant for DRC operations. This record does not presume to provide a comprehensive picture of the progress and challenges for every sector in each location.

Existing protection referral pathways and the CCCM complaints response mechanism form the foundation of this report. DRC seeks to verify concerns reported to the extent possible and share information with the relevant sectors/agencies for further action.
