6. Key Achievements

- Continuous advocacy efforts managed to decrease the rates of deportation.
- Focused on legal issues related to documentation, including development of coordinated response to refugees with documentation problems contributing to protection concerns. At each governorate level NGOs provided guidance on the documentation related problems, supported families and ensured referrals to legal partners.
- Focused on finding solutions to ongoing issues such as early marriages, child labor, Informal tented settlements and people with disabilities by establishing/reviving taskforces or ad-hoc coordination bodies such as ITS, Legal and Documentation. The objective was to set guidelines and minimize impact on people with vulnerabilities.
- Child Protection working group in cooperation with the Family Protection Department of the Government of Jordan established and launched the Standard Operating Procedures for Best Interest Determination (BID) of refugee children in Jordan.
- Targeted to achieve efficiency of the projects implementation and proper addressing needs of beneficiaries by mainstreaming coordination tools such as ActivityInfo, Needs Assessment Registry and Services Advisor. UNHCR, UNICEF and UNFPA assisted the National Council for Family Affairs in two workshops aimed at establishing parliamentary support for a revised draft of a Family Protection Law containing key protection provisions against violence within the family.
