When the pilot is finished, the results need to be reviewed by UNFPA, UNICEF, ACF and UNHCR, and see how best we can introduce this product. There is another project, presented at the WASH Azraq Coordination meeting, to reduce the amount of faecal of sludge. AOB	<ul style="list-style-type: none"> During the meeting the Re-shaping for the WASH Coordination was discussed among the group, to make it more practical and useful, by having trainings and capacity building sessions, upon to the needs of the group. Sector Advisory Group SAG is also one of the needed group that required for the sector, but it's done ad-hoc based on the need. (Consulting issues). It was suggested to come up with a dashboard to wrap up the year, about what have been done over the year in different aspects, especially in HC. It is required to scale up the strategic direction for the WASH sector particularly in HC and ITSs. Instead of having a TF, the WASH WG could discuss the issues raised at the WG meeting and have an ad-hoc meeting and assign a focal point to manage and follow up the matter. To include all the WASH sector innovation son the portal, including: <ul style="list-style-type: none"> - Safe-Pads - Bio-Gas - UFOW: Smart Waste Collection Solution - Water App - Others 	<p>Esmail (UNICEF) & Roelof (UNHCR)</p> <p>Esmail (UNICEF)</p> <p>Hiba (UNICEF)</p> <p>Esmail (UNICEF)</p>	5 min
