Creation date: 29 Jan 2018 Sources: Geographic data: UNHCR, UNCS, UNDP. IDP statistics: OCHA and partners, December 2017. The number of internally displaced persons (IDPs) is updated with the latest figures and estimates available. The number of people displaced each month does not necessarily result in a rise in the overall number of IDPs as many people are "re-displaced" and had already been counted as IDPs. Statistics should be considered provisional and subject to change. Author: UNHCR Regional Service Centre Nairobi Feedback: UNHCR Representation Office in South Sudan
