Vaccination; Deworming; Vitamin A	BCG-171; DPT3-227; PCV3-227; Measles- 204; Vitamin A-367; Deworming- 456	Proportional Morbidity	Malaria 1,111 (14.6%); Acute RTI 1,473 (19.3 %); and Watery Diarrhoea 609 (8.0%)
Suspected VHF cases identified in the week	0	Confirmed VHF cases and (deaths)	0 (0)
Suspected Cholera Cases Identified in the week	0	Suspected Cholera Cases Undergoing Treatment	0

Achievements: Narrative

OPD Consultations:

During the reporting period, a total of 6,094 OPD consultations were made compared to 6,365 reported the previous week.

The leading causes of illness (proportional morbidity) were Acute Respiratory Tract Infections/RTI (19.3%), malaria (14.6%) followed by Watery Diarrhoea/WD (8.0%); this implies that the three top disease conditions contributed at least 42% of the total morbidity for reporting week.

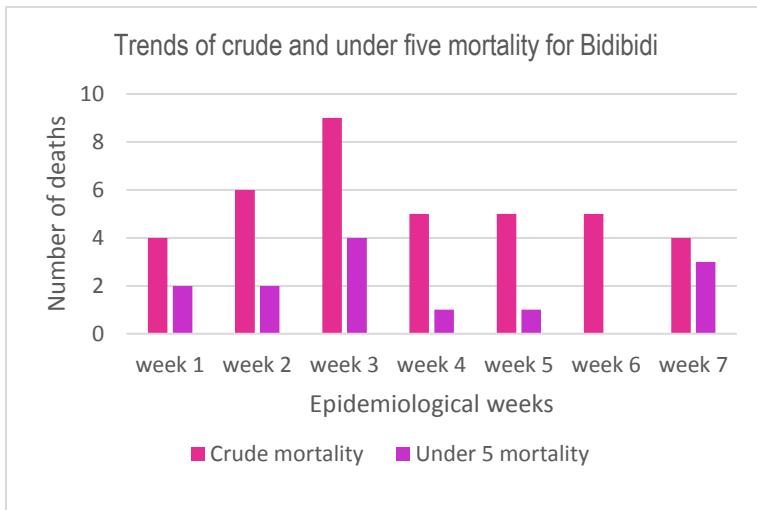

The incidences for malaria, RTIs and watery diarrhoea this week are estimated at 4, 5 and 2 cases/1,000 persons/week respectively.

No cases of Dysentery or Typhoid were reported.

No new cases/suspects for Viral Haemorrhagic Fever.

Results for the last suspected case have not been received from UVRI.

▪ **Mortality:**

A total of four (4) deaths (1 F; 3 M), including three (3) under five year old children and one (1) elderly person above 60 years were registered (3- Public Referral Health Facilities; 1 Settlement Facilities). Probable causes of deaths were as follows: Anaemia (1), Tuberculosis (1), Malaria (1), and AWD(1).

The Crude Mortality Rate (CMR) and Under 5 mortality rates are estimated at 0.02 and 0.15 deaths/10,000/day respectively, which are both below the emergency threshold of 1 and 2 deaths/10,000/day respectively.

▪ **Mental Health and Psychosocial Support:**

Total number of consultations during the week were 150 (56 new cases and 94 revisits). Consultations were made for Epilepsy (120), Depression (7), Psychosis (16) and Drug abuse (3). No suicide attempt (or suicide) was reported this week.

▪ **Reproductive Health, HIV/AIDS:**

Total for ANC 1 was 151, ANC 4 was 104 and PNC was 192, while 90 deliveries were conducted (with 8 deliveries by nationals). One hundred and sixty seven (167) mothers were tested during ANC; none tested positive. The Number of new clients enrolled on ART during this week is 2.

▪ **Expanded program for immunization, Vitamin A supplementation and deworming:**

A total of 227 doses of DPT 3 and an equal dose of PCV3; 204 doses of measles and 171 doses of BCG were administered to children in the settlement; 367 doses of vitamin A supplements and 456 doses of deworming tablets were also given.

▪ **General updates**

- Training for Health workers and Village health team members (VHTs) on VHF/RVF was completed in the settlement.
- Training for Health workers in Non Communicable Diseases (NCDs) in Moyo targeting 8 participants (NCD champions from Bidibidi) was completed;

RVF Training for Health workers by Regional EPR Team RVF Training for VHTs in Bidibidi Refugee settlement (Ariwa, Zone 5)

▪ **Challenges/constraints:**

- Stock-out of vaccines; BCG, Measles and IPV at the DVS; with limited stock in the Health Facilities;
- Water shortage in zone 3, especially Yoyo, Jomorogo and Luzira health facilities

Achievements: Narrative

- A total of **55** children aged 6-59 months were enrolled in the feeding programs in the reporting period (**4** in ITC, **10** in OTC and **41** in SFP). A total of **2,649** children were screened during the week.
- A total of **936** pregnant and lactating women were screened, **08** were identified and enrolment into the SFP program.
- A total of 1,440 children aged 6-59 months were reached by MCHN while 874 Pregnant and Lactating women were reached.

Infant and Young Child Feeding:

- During this reporting period, a total of **76** mother-baby pairs accessed the 3 mother-baby areas of Yangani (**46**), Ombechi (**12**) and Kiranga (**18**).
- Out of the **76** mother-baby pairs mentioned above, **21** pairs were accessing MBAs for their first time this year while **55** came for follow up visits.
- All Mother- Baby pairs were assessed, those with breastfeeding difficulties received full assessment, and then one-on-one skilled counselling was offered. Mothers and caretakers without breastfeeding difficulties were given key messages concerning appropriate Infant and Young Child Feeding in Emergencies, and some came to breastfeed.
- Three open day sessions for men were conducted in Yangani, Ombechi and Kiranga,
- During the course of the week, **135** homes were visited out of which **30** referrals were made; **20** for MBA and **10** for Medical services.
