

Overview

The Proof of Registration (PoR) card is an important protection tool that is issued by Government of Pakistan and provides temporary legal stay and freedom of movement for the 1.4 million registered Afghan refugees in Pakistan. All the PoR cards that expired at the end of 2015 have been extended through official notification until 30 June 2019*.

The four PoR Card Modification centres (PCM) are located in Peshawar, Quetta, Karachi and Rawalpindi. These centres are used for the modification and replacement of existing cards; the registration of infants and children up to the age of five years; the issuance of new cards for eligible children who are five years and older; and the issuance of birth certificates to children under the age of 18.

In 2019, UNHCR prioritised funds for birth registration and the issuance of birth certificates to 70,000 children. The target for the issuance of individual PoR cards is 170,000 children who have reached five years of age and are eligible to receive their individual cards from the PCM centres.

In April, a slight increase of applicants for PCM centre services was observed. During the reporting month some 5,591 applicants availed registration services (3% increase compared to March 2019). This is attributed to the continuation of Mobile Registration Van (MRV) operations in remote areas of Punjab and Balochistan provinces.

*PoR cards have been extended until the end of June 2019 by the Federal Cabinet in its meeting of 2 October 2018.

** The issuance of birth certificates is temporarily suspended by NADRA HQ. UNHCR is following-up with NADRA HQ to resolve the issue on a priority basis.

PoR cards for children reaching above five years of age

Registration activities per week

Registration activities summary by location - January–April, 2019

Total registered refugees in Pakistan as of 30 April 2019

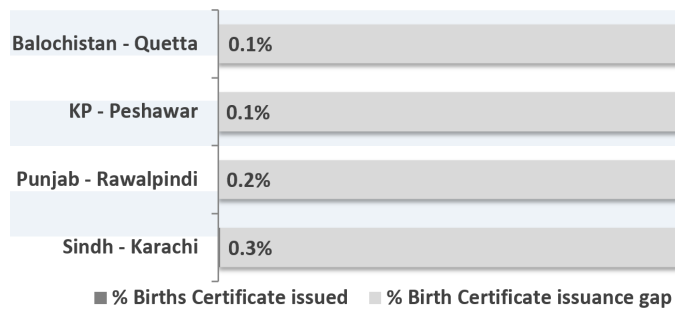

1,405,600

Birth registrations

Above percentage presented against the target of 70,000 new births during 2019

Birth certificates

Above percentage presented against the target of 70,000 birth certificates

Provision of PoR cards to registered children that have reached above 5 years of age

Above percentage presented against the target of 170,000 children who have reached five years

Card modification / replacement

Cards modification includes changes to Name, Father Name, Gender and Marital status and it does not entail an annual target.

The following charts summarise the progress towards 2019 targets and the remaining gaps.

The percentages for birth registrations, birth certificate issuance and provision of PoR cards to registered children that have reached five years of age are based on the estimates noted on page 1. These overall targets have been apportioned to each centre based on the size of the Afghan refugee population for which the centre provides services.

During the reporting period, the trend in child registration activities decreased slightly compared to those in March 2019 at all PCM centres and MRVs countrywide (a total of 2,365 children were registered in April 2019 at all the PCM centres and MRVs countrywide compared to 2,612 in the month of March 2019).

In 2019, based on a cost-benefit analysis with PCM centres and discussions on the best interests for persons of concern, UNHCR will continue to deploy 3 Mobile Registration Vans (MRVs) in KP, Balochistan and in Punjab (for a period of four months each). The deployment of MRVs was very successful in 2018. The Mobile Registration Vans provide services for applicants living in remote areas of KP, Punjab and Balochistan, facilitating those who can't afford to travel to PCM centres.

During the month of April, the Mobile Registration Van (MRV) operations continued in Punjab and Balochistan provinces. The first phase of the MRV operations will continue until 2 May 2019, prior to the beginning of the month of Ramadan.

During the reporting period, birth certificate issuance remained temporarily suspended by NADRA HQ. The reason of the suspension is that NADRA HQ has made changes in the template and they are seeking formal endorsement from the Ministry of Interior/CCAR. UNHCR is following-up with CCAR/NADRA HQ to resolve the issue on a priority basis.

It should be noted that the trend for PoR card modifications will naturally follow that of birth registrations and the provision of PoR cards to children over five. This is because children are added or removed from their parents' cards, and their parents' cards will need to be modified.

From 1 January to 30 April 2019, 2,035 lost or stolen cards were replaced. Deaths of refugees continue to be significantly underreported. Only 13 deaths were registered/reported between January to April 2019.
