1. Implementation of Gender with Age Marker (GAM)

Basic Needs GFP updated on the progress made on the implementation of the GAM and other initiatives taken thus far in her sector. The initiatives include raising awareness of the sector members on practical steps for integrating gender within the sector programming and conducting a survey to prioritize and gauge the areas of interest on gender among the sector members. It was agreed that the Basic Needs GFP will present on her initiatives and findings to the Network in the April meeting to exchange the good practices and to enhance collaboration with the other SGFPs. It was also noted that further training is needed on GAM for the SGFPs with more focus on the practicality of utilizing the Marker, including at the monitoring stage.
