1. Gender with Age Marker Refresher Session

The refresher session covered the presentation on the overview of Gender with Age Marker (GAM), discussions on key questions to design gender-responsive project proposals, and practical trainings using the GAM tool. One of the main objectives was to become more familiar and to be able to independently use the GAM tool. It was encouraged to review the sectoral TIP sheets on the GAM website and to further familiarize with the GAM tool by reviewing programmes available through the Jordan Response Plan (JRP) and Jordan Humanitarian Fund (JHF) and by giving them a GAM score. Furthermore, it was emphasized to include GAM as part of the sector work plan as well as the SGFPN work plan.
