TOTAL DISPLACEMENTS

27,000 in August
270,000 Jan - Aug 2019
695,000 Jan - Aug 2018

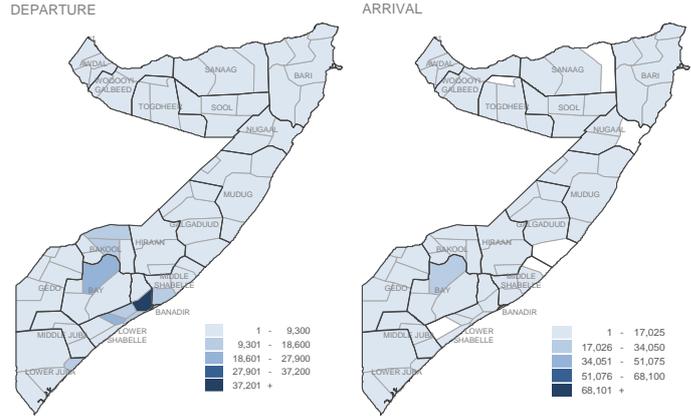

The UNHCR-led PRMN implemented in partnership with NRC reported 27,000 new internal displacements in the month of August 2019. Of these, 15,000 were triggered by conflict /insecurity, 11,000 related to drought related and 1,000 due to other reasons. The next Deyr cropping season (October-December), is projected to be wetter than normal in most areas and rains will may cause flooding along the country's main Juba and Shabelle rivers.

BY REGION (Jan - Aug 2019)

DEP	ARR
Lower Shabelle	77,930 13,230
Bay	35,000 32,130
Bakool	31,360 30,520
Middle Shabelle	20,670 17,700
Sanaag	14,480 13,040
Hiraan	11,210 7,970
Lower Juba	12,230 13,760
Galgaduud	11,790 15,590
Mudug	9,050 10,930

AGE & GENDER (Jan - Aug 2019)*

About PRMN

The PRMN (Protection & Return Monitoring Network) is a UNHCR-led project which identifies and reports on displacements (including returns) of populations in Somalia. The network also identifies and reports on protection risks and incidents underlying such movements. Only figures collected by PRMN are reported above. Not all displacements in Somalia are captured. This dashboard should be read in conjunction with the Notes on PRMN Methodology (<https://data2.unhcr.org/en/documents/details/53888>) which outline the approach and certain limitations. The figures shown are for numbers of individuals and are based on interviews with key informants and/or displaced households at destination (unless otherwise noted). Further information and datasets available on request see contact below.

UNHCR is grateful for the generous contributions of donors who have directly contributed to the UNHCR Somalia operation in 2019
