Raffaella Pascarella

Snr. Field Coordinator

📍 UNHCR Zahle

☎ +961 71 911 435

✉ pascarer@unhcr.org

- Initiate the extreme weather response / Rapid Needs Assessment (RNA)
- In charge of establishing an RNA partner geosplit in their area of operation
- Ensure all RNA partners are trained and familiar with the emergency tools
- Communicate prioritization process to RNA and response partners
- Monitor the ongoing response and ensure gaps are identified
- Monitor accuracy of data collected
- Report back to the national level Inter-Agency team

WET – WEATHER TOOL – ROLES AND RESPONSIBILITIES

RNA PARTNERS

- To conduct RNAs in sites referred in their area of responsibility (within 48 hours)
- To ensure data collected is accurate and complete
- To ensure the information is submitted to the server
- Inform Emergency Focal points when sites have been assessed

WET – WEATHER TOOL – ROLES AND RESPONSIBILITIES

SECTOR LEADS

- Use data collected by RNA partners to trigger response
- Coordinate closely with emergency focal points and sector partners
- Ensure assistance is provided to affected population / sites
- Ensure sector partners are updating the gaps information in the RNA assessments

WET – WEATHER TOOL – ROLES AND RESPONSIBILITIES

RESPONSE PARTNERS (EXAMPLE: SHELTER PARTNER)

- Use data collected by RNA partners to initiate and plan response
- Coordinate closely with sector leads
- Ensure assistance is provided to affected population / sites in their area of response
- Update gaps information in the RNA assessments

Extreme Weather and Emergency Tools

Set of tools for the referral, assessment and emergency situations.

Emergency Referral

Used by partners to refer affected sites. Emergency focal points in each field office will use referred sites to prioritize rapid needs assessments.

Phone Questionnaire

The phone survey will be used by the emergency focal points to help prioritize sites for rapid needs assessment.

RNA & Emergency Distribution Tool

RNA is a form to be used by partners to conduct on site rapid needs assessments (RNA). Emergency distribution tool is to be used during or shortly after emergencies only. This tool utilizes the same terminology and has the same items as the RNA. To be used by all partners distributing relief items during an emergency.

Online Dashboard

Dashboard to quickly gain insights into the most important aspects of emergency situation. Real time insights to identify items that require urgent action and properly purposing resources.
