■ USD 261 m / 45% received  
 USD 578 m required

Notes: Figures may differ from country level, where some governments have established financial tracking with different criteria and definitions.

Funding received figures include multi-year funding received specifically for use in 2019 or new funding received in 2019. Any carryover funding from 2018 is not reflected.

Figures are subject to change based on new information received.
