## Reporting Mechanism

---

At the start of the year, sectors set objectives, outputs and activity indicators and decide how to measure progress towards those goals.

### What is an indicator?

Variable that indicates or shows a given situation, and hence can be used to measure change

### Example:

**Objective:** Improved livelihoods and living conditions, including better and improved decent work conditions both for Syrians and host communities

**Output:** Syrian and/or impacted host communities gained better access to economic opportunities and gender sensitive active labour market

**Indicator:** # of Syrian men and women or host community members employed through public infrastructure and environmental assets improvement such as cash for work programmes

### Where do we report progress? On ActivityInfo
