Mai Nai Soi	8%	31%	54%	8%	49%	51%
Nu Po	8%	30%	56%	5%	51%	49%
Tham Hin	9%	34%	52%	6%	52%	48%
Umpium	7%	30%	56%	6%	50%	50%

## Funding Situation (USD)

\*These funding requirements are for 6 months based on current assessed needs.

Contribution Received **1.36M**  
Gap **3.23M**

# Dashboard

COVID-19 Outbreak Response Coordination Group for the 9 temporary shelters along the Thai-Myanmar border

24 April 2020

## Risk Communication

ADRA (COERR, UNHCR, TBC)\*

**Key Issue** *Outreach to refugees in context of social distancing*

- Ongoing sharing of COVID-19 prevention and response messages with refugees
- Risk Communication and Community Engagement Strategy (RCCE) under development in consultation with camp committees
- Guidance for vulnerable families on mental health and wellbeing under development
- Provision of cloth masks to refugees

## Case Management

IRC (MI)\*

**Key Issue** *Currently no secured testing or referral facilities for 4 camps (~32,000 people) in Mae Hong Son Province.*

- Presently locating and preparing COVID-19 Treatment facilities
- Engaged with Shoklo Malaria Research Unit to ascertain capacity to do testing for Mae Hong Son camps
- Initiated development of case management protocols
- Initiated procurement of pharma and supplies
- Enacted measures to reduce overall patient load at health facilities

## Surveillance, Case Investigation and Outbreak Rapid Response

IRC (MI, CDC, WHO, MOPH, MOI)\*

**Key Issue** *Different approaches to quarantine measures applied across camps.*

- Displaced Persons in Thailand Guidelines for Prevention, Surveillance, Investigation, and Mitigation of COVID-19 near completion and approval by MoPH
- All surveillance staff trained and applying current MoPH case definition
- Triage conducted at all camp hospitals to cohort and screen patients with symptoms
- Community surveillance systems operating in all nine camps
- Ongoing support to Thai officials conducting screening at entry/exit gates
- Contact tracing training for community health workers completed in some camps and ongoing in others
- Transit isolation rooms identified and ready for patients awaiting referral

## Infection Prevention and Control (IPC)

IRC (MI, CDC)\*

**Key Issue** *Unpredictable supply of personal protective equipment (PPE)*

- Hospital-based COVID-19 SOPs developed and trainings conducted for all health care staff in nine camps
- Decontamination SOPs under development, training of appropriate staff underway
- IPC detailed refresher training delivered to local authorities and camp security
- Soap and water supplies provided to support continuous operation of handwashing at camp entry/exit points
- Setting-up of additional handwashing sites in all 9 camps underway
- Hand hygiene at household level supported by community engagement team

## Food

TBC

**Key Issue** *Increasing vulnerability and dependency on assistance in the long term*

- COVID-19 transmission mitigation guidance issued to food vendors, suppliers and warehouses
- Food vendors provided with soap, alcohol and bleach to sanitize shops
- Handwashing stations installed at shops and warehouses
- SOPs for quarantine/isolation conditions developed, in coordination with nutrition teams, health actors and camp committees
- Strategy developed to ensure refugees' continued access to basic food items and cooking fuel

## Protection and Advocacy

UNHCR (CCSDPT agencies, KWO, KnWO, KRC, KnRC)\*

**Key Issue** *Inclusion of refugees in national surveillance, response, and planning*

- Continued advocacy on inclusion of refugees in the RTG's national surveillance, response and planning activities for COVID-19
- Supporting mainstreaming of protection in the work of other pillars
- Ensuring continued delivery of protection services for the most vulnerable
- Ensuring continued regular and effective protection monitoring, including access to reporting channels for SGBV survivors and other serious protection cases
- Delivering technical support for remote case management to camp-based staff and CBOs to ensure continuity of protection services

\*Represents lead and collaborating agencies for COVID response
