

## TRI-CLUSTER COVID-19 STRATEGY

In collaboration with the **Health and WASH Clusters** the **UNHCR-led Tri-Clusters** will work to support the most at risk IDP communities prone to COVID-19.

The **community-managed strategy** aims to support limited health facility capacity through preventive measures and reduce transmission.

### COVID-19 FUNDING NEEDED\*

# USD 56,000,000

**PEOPLE IN NEED**  
1,000,000

**728,359 PEOPLE TARGETED**

**360,000 PEOPLE RECEIVE CASH**

**Community Isolation Spaces** will be created in 600 most in need IDP sites aiming to reduce transmission

People living in worst conditions in **600 camps** will receive **cash** for burials and other life-sustaining services

People living in **600 IDP sites** will be less at risk due to decongestion measures being taken

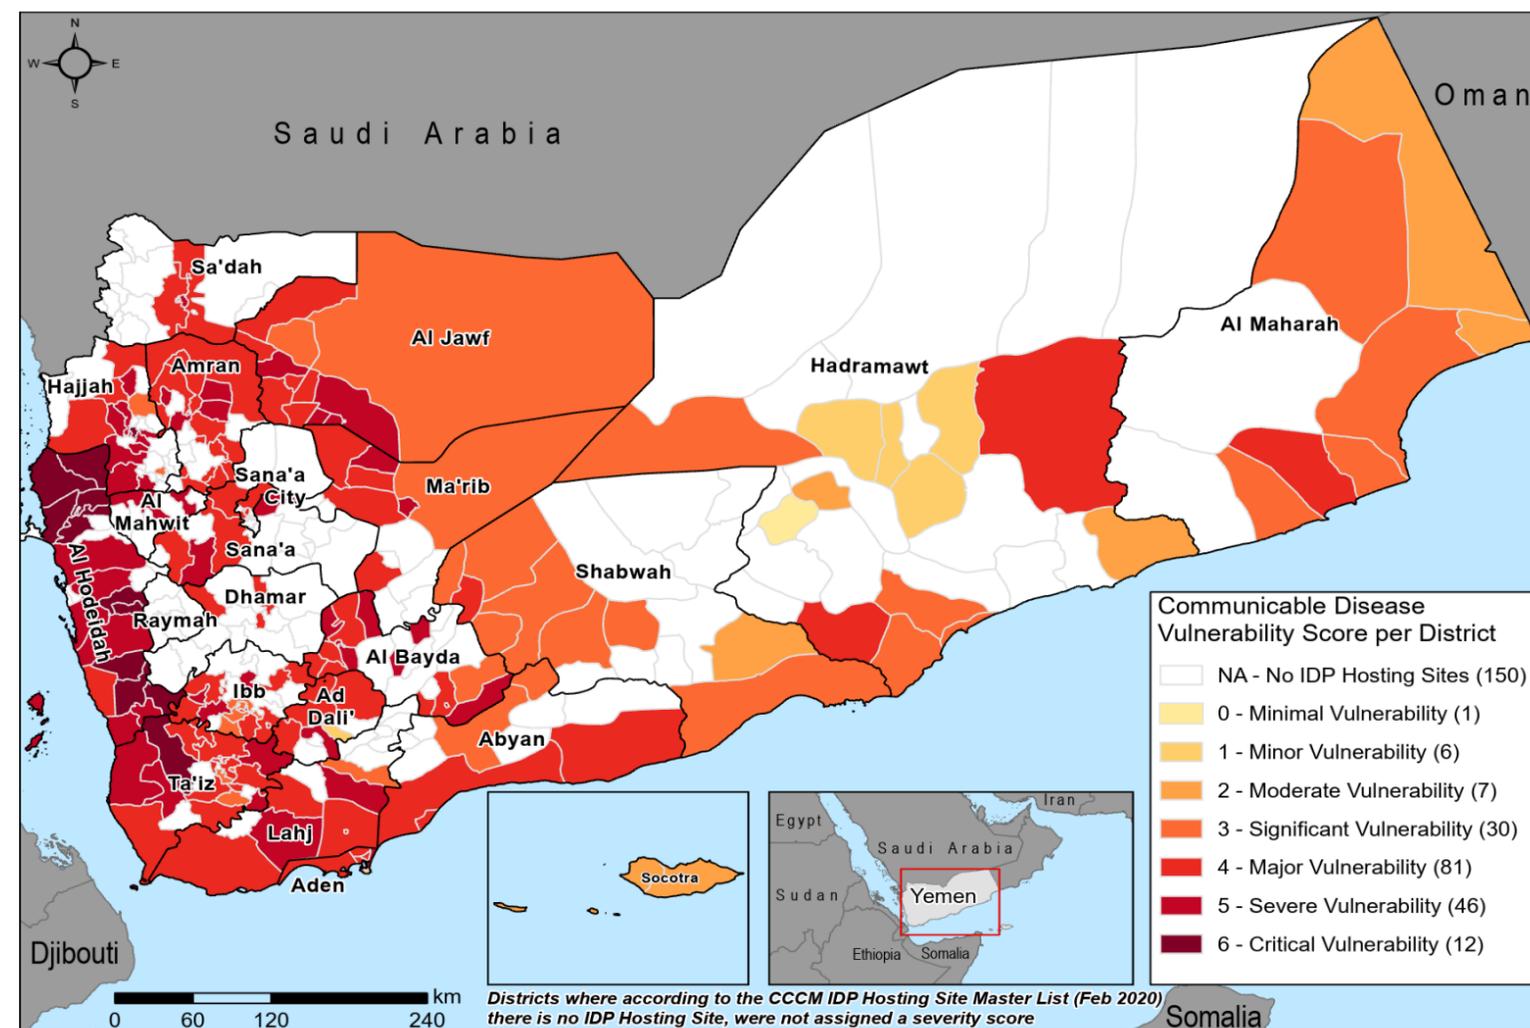

**Hand Washing Stations** will be set-up for people in **600 IDP sites**

People living in **400 IDP sites** will receive **hygiene items**

IDP site community networks will support **prevention and symptomatic identification**
