- Contour line (10 m)

### Interpretation

Adimazin Transit Camp in Ethiopia was established in October 2011 after thousands of civilians have started fleeing from fighting in Blue Nile State of Sudan. The camp is located in Ethiopia about 20 km away from the Sudanese border and has reached a population of 3,132 Sudanese refugees in November 2011. UNHCR provides protection and monitors the delivery of services.

This map shows the structure of Adimazin Camp based on analysis of a WorldView-2 satellite image of November 7, 2011.

All visually interpreted features are captured with best effort but in some cases may not be complete.

### Cartographic Information

Local projection: UTM Zone 36N, Datum: WGS 84  
 Geographic projection: Lat/Lon (DMS), Datum: WGS 84

Scale: 1: 7 500 for A1 prints

### Framework

SAFER and its suppliers have attempted to provide mapping that is as accurate as is available with the source material, however all geographic information has limitations due to the scale, resolution, date and interpretation of the original source materials. Accordingly, SAFER maps are distributed as is, without any warranty, either expressed or implied, including but not limited to warranties of suitability to a particular purpose or use. The entire risk as to the results of the use of these data is assumed by the user and the supplier accepts no liability for any loss, damage or inconvenience caused as a result of reliance on the mapping.
