

## Tunaydbah Settlement

In support of the Government of Sudan's response to the ongoing influx of refugees from Ethiopia's Tigray region to eastern Sudan, UNHCR, partners, and other UN agencies set up a new refugee settlement in Tunaydbah-Gedaref State.

With Um Rakuba camp - also in Gedaref State - reaching its full capacity, new arrivals from Ethiopia are now being relocated from Hamdayet, Lugdi/Village 8, and Al Asera border points to Tunaydbah.

UNHCR Information Management team held a settlement profiling (GIS) mission to the designated Tunaydbah settlement between 1st - 12th January, 2021 to promptly assess, map, and present the available facilities on the ground and analyze the gaps and needs for a better response, based on the minimum Sphere and Humanitarian standards.

### Settlement Demographics

**6943**

Individuals relocated  
(As of 17 January 2021)

**4,129**

Individuals relocated  
from Hamdayet

**2,814**

Individuals relocated  
Village 8

### Settlement Infrastructure

**2070**  
Shelters

**30**  
Water Points

**112**  
Shower

**6**  
Health Facilities

**1**  
Registration Centres

**104**  
Latrines

**3**  
Rub Halls

<sup>1</sup> Settlement profile is living document, and as such it is subject to continued revision in the bi-weekly basis as develop based on emerging issues and identify alternative solutions for the gaps identified.

### Minimum Standards

(Storage Capacity)

Sector	Minimum Standard	Result	Achievement
Shelter	Average Individuals per Shelter(Max 4)	3 per Shelter	●
WASH	50 Persons Per Latrine	67 per Latrine	●
	Minimum of 15 litres per person per day	11 litres per person	●
	50 Persons Per Shower	62 per Shower	●
Health	Presence of Health Facility(Yes)	Yes	●

Targets based on Sphere and humanitarian minimum standard

● Minimum Standard met      ● 50%-99% Minimum Standard met      ● 0%- 49% Minimum Standard met
