# Refugee Sector Gender Focal Points Network [SGFPN]

## Session on Gender Monitoring

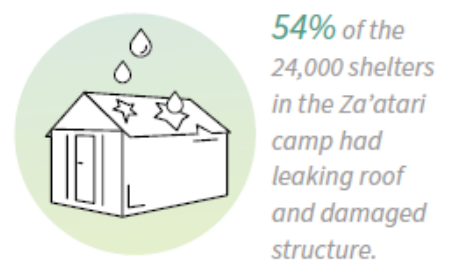

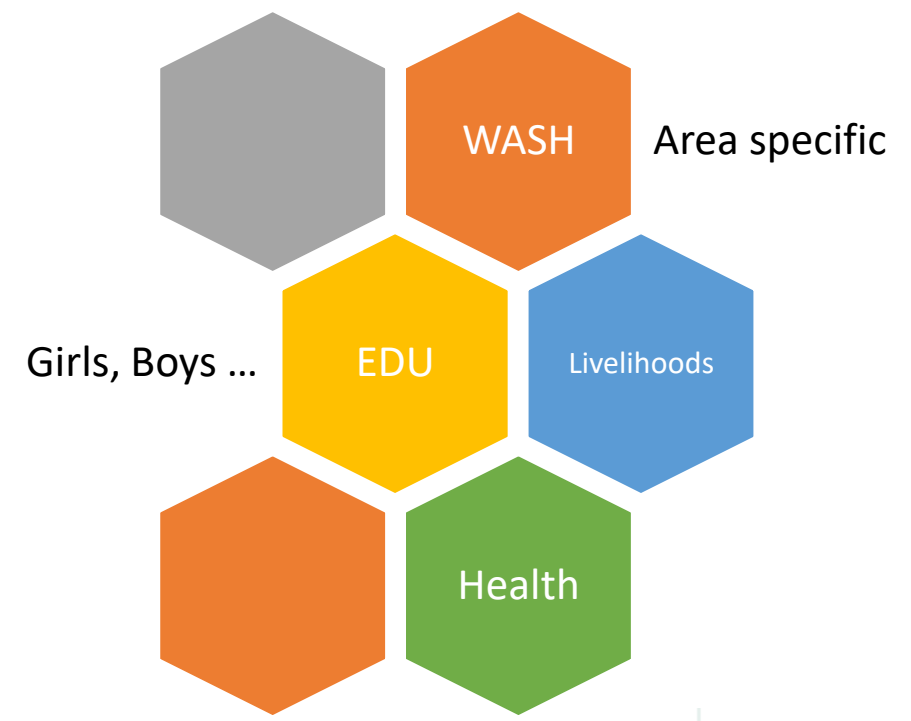

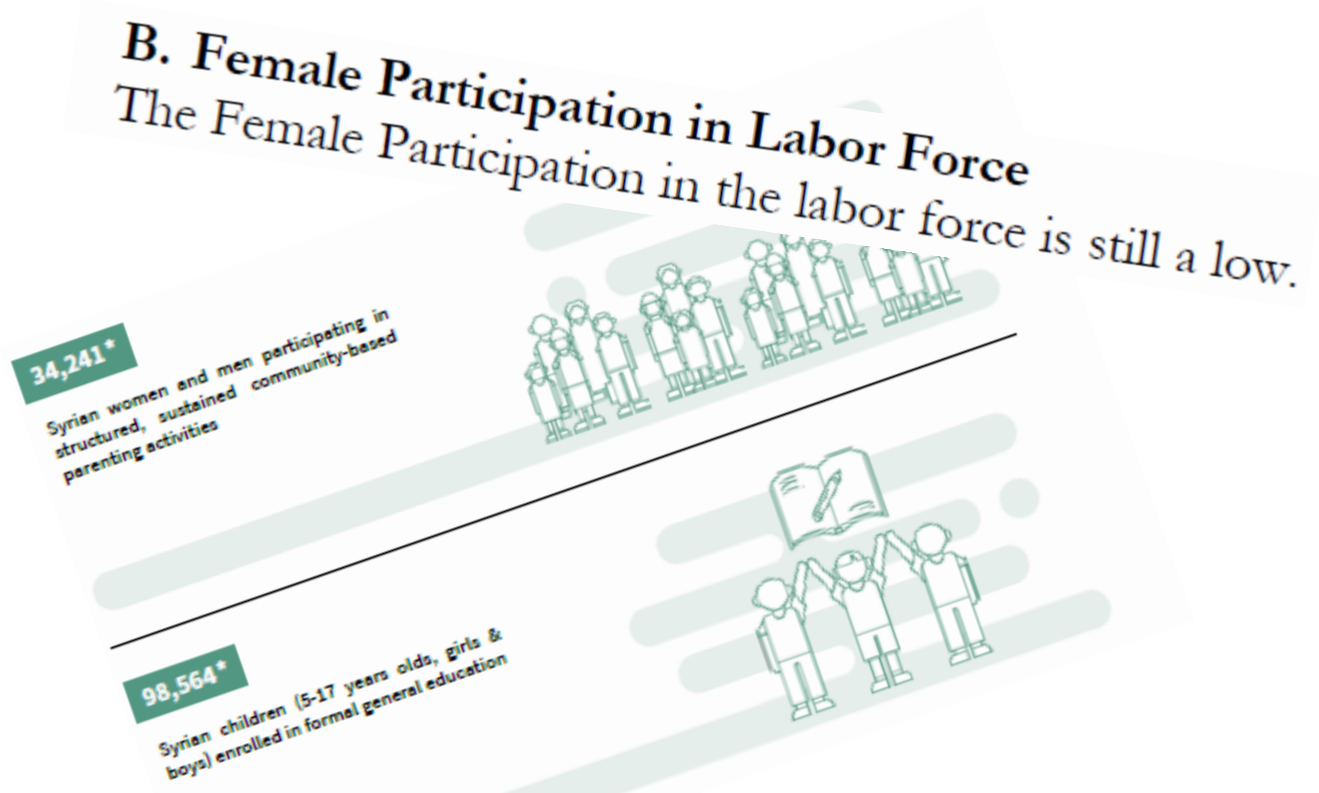

04 February 2021

# Areas of focus

- Objectives of the sector – JRP and 3RP planning
- Frameworks - GAM, AGD, GiHA ...
- Sector dashboards – <http://scs.raisunhcr.org/>

# In order to provide

- Situation of the sector with gender lens
- Analysis with frameworks – achievements and challenges
- Recommendations - ...and way forward

### Sector Specific Objectives:

1. Access to quality food for **vulnerable** women, girls, boys and men affected by the Syria crisis. This through the distribution of food assistances (both cash and in kind) to Syrian refugees and vulnerable Jordanians

5. Providing safe and equitable access to adequate and gender appropriate sanitation services in camps.

Women, girls, boys and men living in the camps and receiving life-saving basic needs support

Syrians				
Total #	# of Men	# of Women	# of Boys	# of Girls
125,642	125,642	125,642	32,667	31,411

## Design Phase

**A Gender Analysis**  
The needs, roles and dynamics of women, girls, boys and men in different age groups are understood

**D Tailored Activities**  
Women, girls, boys and men in different age groups get the right resources

**G Influence on Project**  
Women, girls, boys and men in appropriate age groups influence decisions throughout the project

**J Benefits**  
Women, girls, boys and men in different age groups get different benefits

## Monitoring Phase

**B Collect and Analyze SADD**  
Different people are counted

**C Good Targeting**  
The right people get resources

**E Protection from GBV**  
People are safer

**F Coordination with others**  
With other sector members and other sectors

**H Feedback & Complaints**  
People can complain and be heard

**I Transparency**  
People get the information they need

**K Satisfaction**  
Different people are satisfied

**L Project Problems**  
Problems are known and addressed

## Tips for Mitigating Risks faced by Older people

1. Advocate with authorities that special provisions are made to ensure older people have access to support and basic services in any restrictions on movement or travel.
2. Identify older persons of concern that may have underlying health issues and where possible, ensure that older POCs have updated, regular information about health concerns, referral pathways and possible prioritization for treatment if they present symptoms of COVID-19 and that such information is made available in ways that is accessible and takes account of the specific needs of older persons; and
