

"The list below shows those partners that have registered with the 4W database or are reported through other channels to WHO; it does not necessarily include all the partners active in the health sector in Poland as part of the Ukraine Refugee Response. If your organization is active in the health sector but not represented in the chart, or if you'd like to update your info, please fill in the 4W form and your activities will be added to the next edition of the chart"
