

# DISABILITY NEEDS OF UKRAINIAN PEOPLE IN POLAND

Based on the  
r-ATA Assessment in June 2021

# Methodology

Desk Review / Interviews / Focus Groups / Assessments using

- *5-P's: People, Policy, Products, Provision, Personnel*
- *Assisted Technology Assessment Capacity (ATA-C) Tool*
- *Rapid Assistive Technology Assessment (r-ATA)*

Desk Review & ATA-C: April 2020

Interviews: August 2020

Field Research: September 2020

r-ATA April – June 2021: 7,125 people from all regions of Ukraine

## Limitations

- ATA-C Assessments, Interviews, Focus Groups reported mainly on mobility products
- ATA-C field research was only conducted in Kyiv and Kharkiv
- No first-hand accounts on assistive technology from professionals or users from rural areas

# 5-P Results

- **Policy**

Only persons registered as disabled are eligible for Government funded assistive products

- **Products**

Many are low quality

Limited options & availability for products other than mobility and self care

- **Provision**

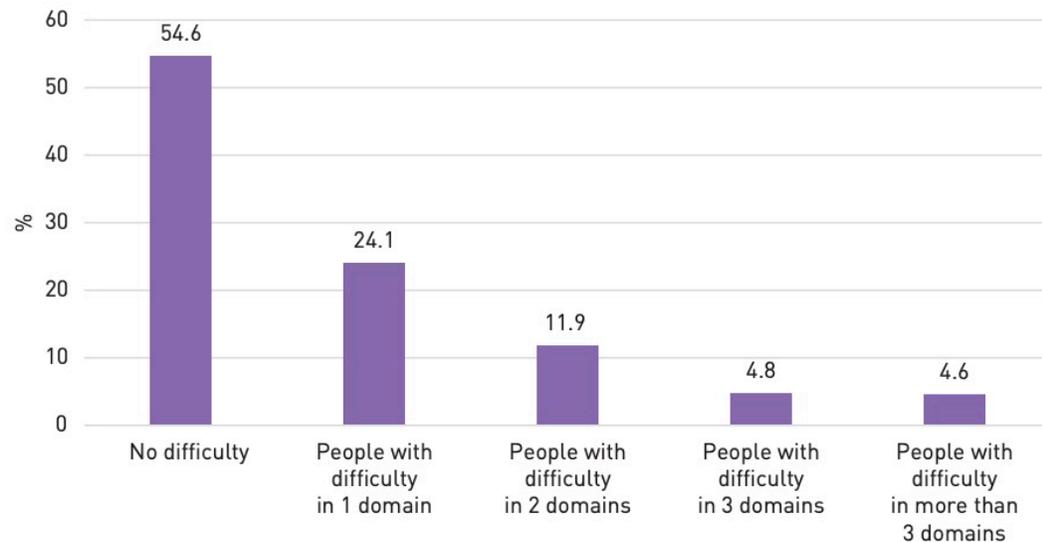

Assistive products are often provided without complete services

- **Personnel**

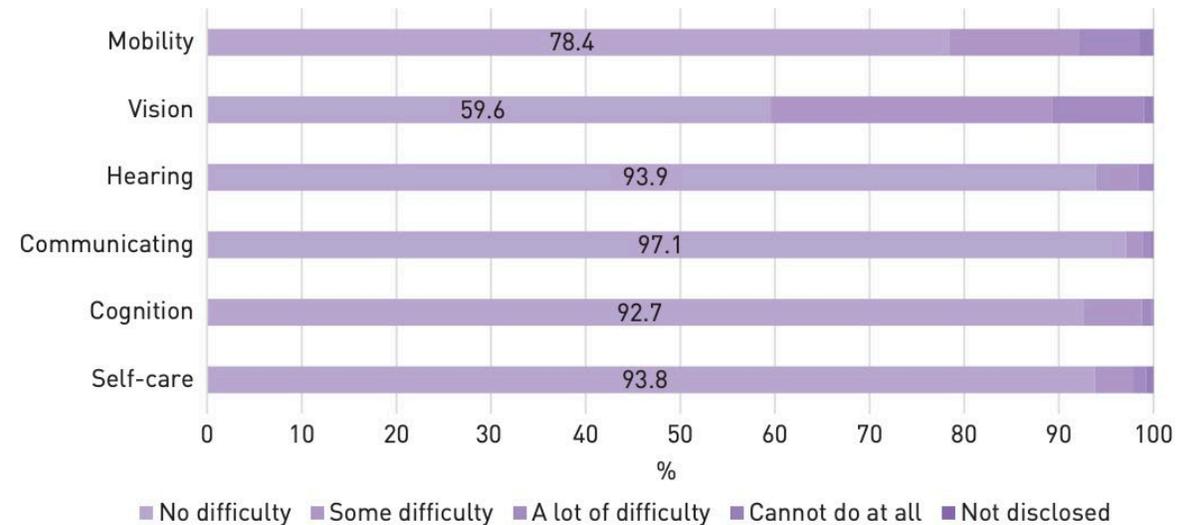

Few assistive technology professionals trained to international standards

# r-ATA Survey Results

- 45% reported some difficulty in 1-2 domains

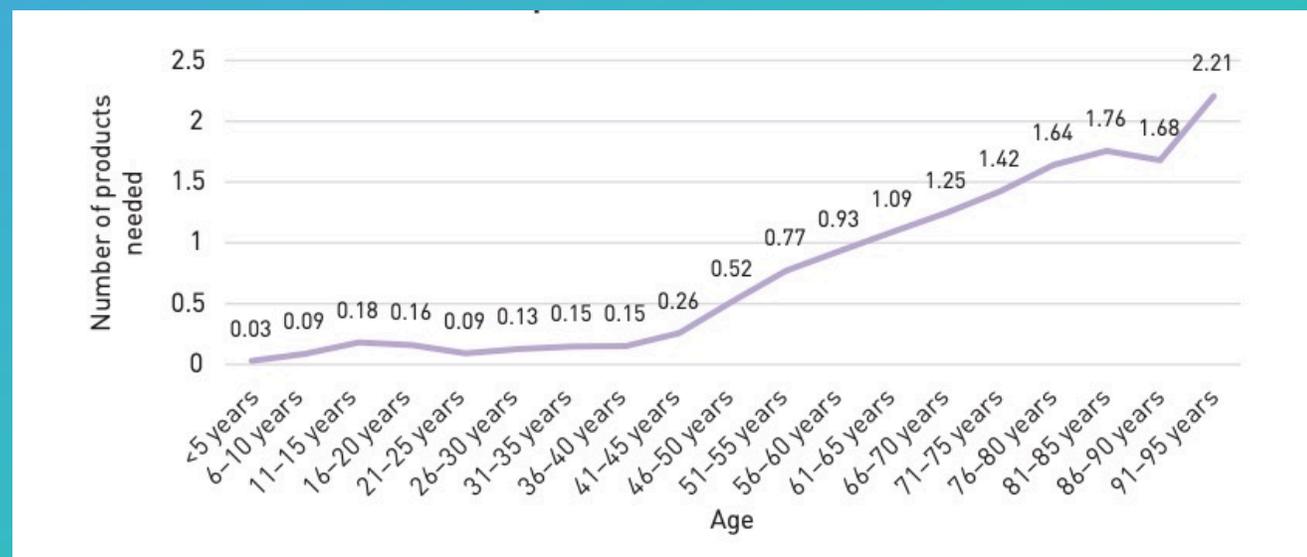

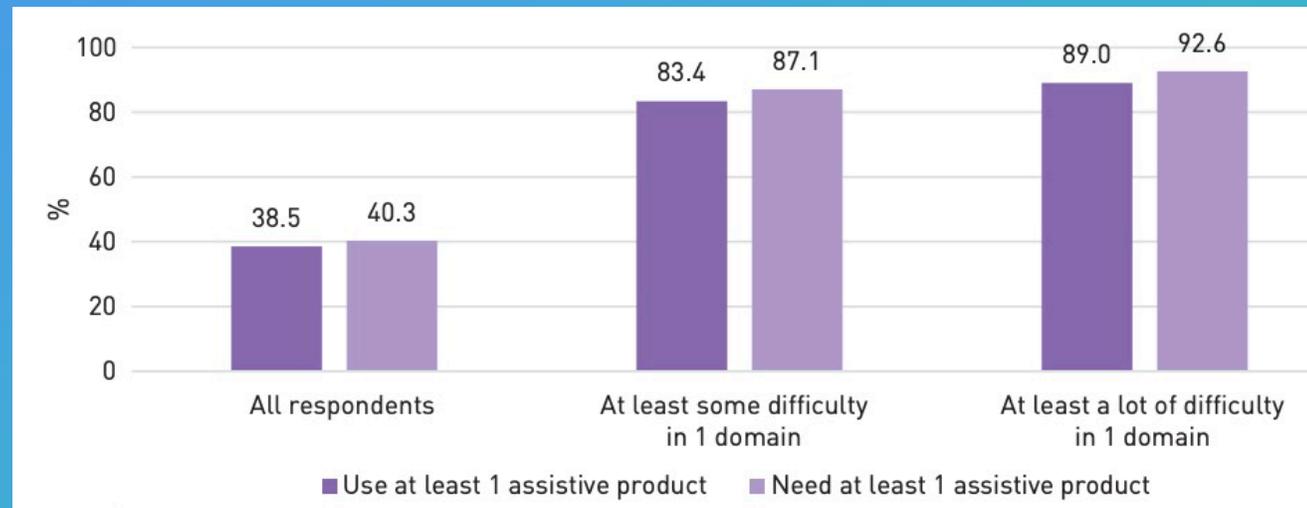

Respondents per number of functional limitations

Distribution of according to functional domains

# r-ATA Survey Results

## Use & Needs

# r-ATA Survey Results

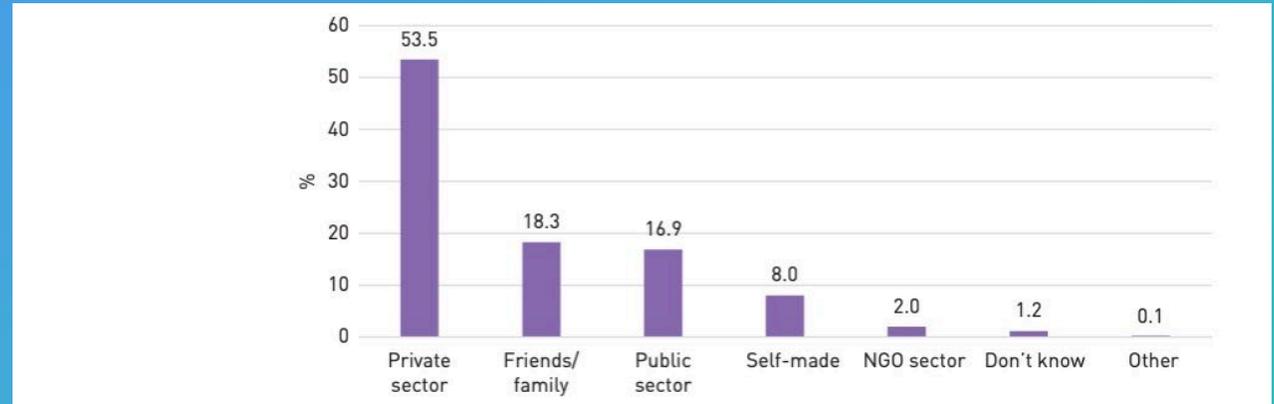

- Use & Needs

USE an assistive product	Number of cases	NEED an assistive product*	Number of cases	% met need**
1. Spectacles	2419	1. Spectacles	2727	89
2. Canes/sticks, tripod, quadripod	369	2. Canes/sticks, tripod, quadripod	445	83
3. Incontinence products	60	3. Orthoses (spinal)	86	52
4. Magnifiers, optical	55	4. Incontinence products	79	76
5. Axillary/elbow crutches	53	5. Hearing aids (digital) and batteries	74	43
6. Orthoses (spinal)	45	6. Axillary/elbow crutches	70	76
7. Walking frames/walkers	34	7. Magnifiers, optical	67	82
8. Hearing aids (digital) and batteries	32	8. Walking frames/walkers	62	55
9. Orthoses (lower limb)	29	9. Orthoses (lower limb)	58	50
10. Chairs for shower/bath/toilet	24	10. Chairs for shower/bath/toilet	48	50
11. Manual wheelchairs, push-type	17	11. Smartphones/tablets/personal digital assistants	41	39
12. Therapeutic footwear	16	12. Therapeutic footwear	40	40

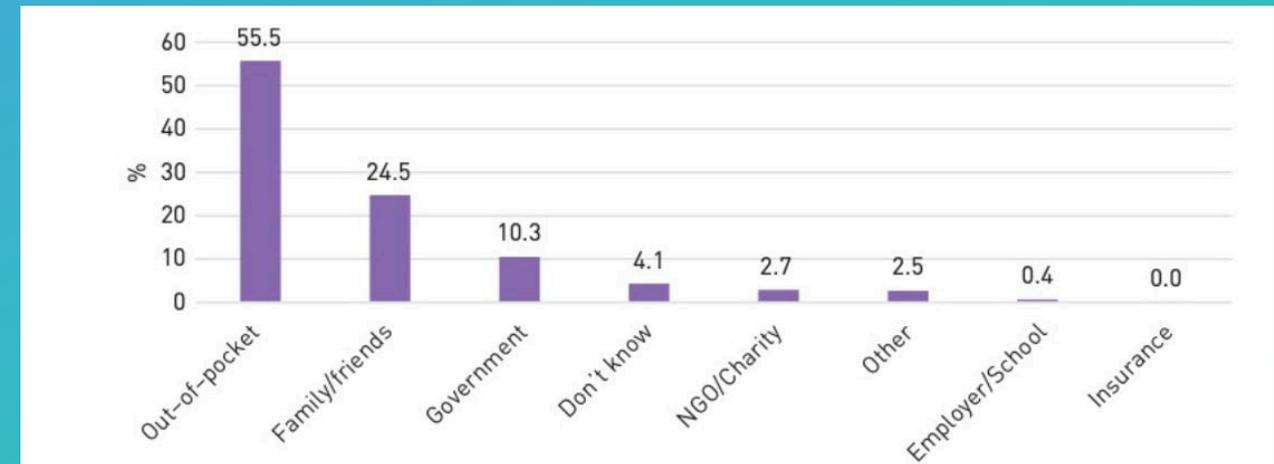

# r-ATA Survey Results

## Providers & Funding Sources

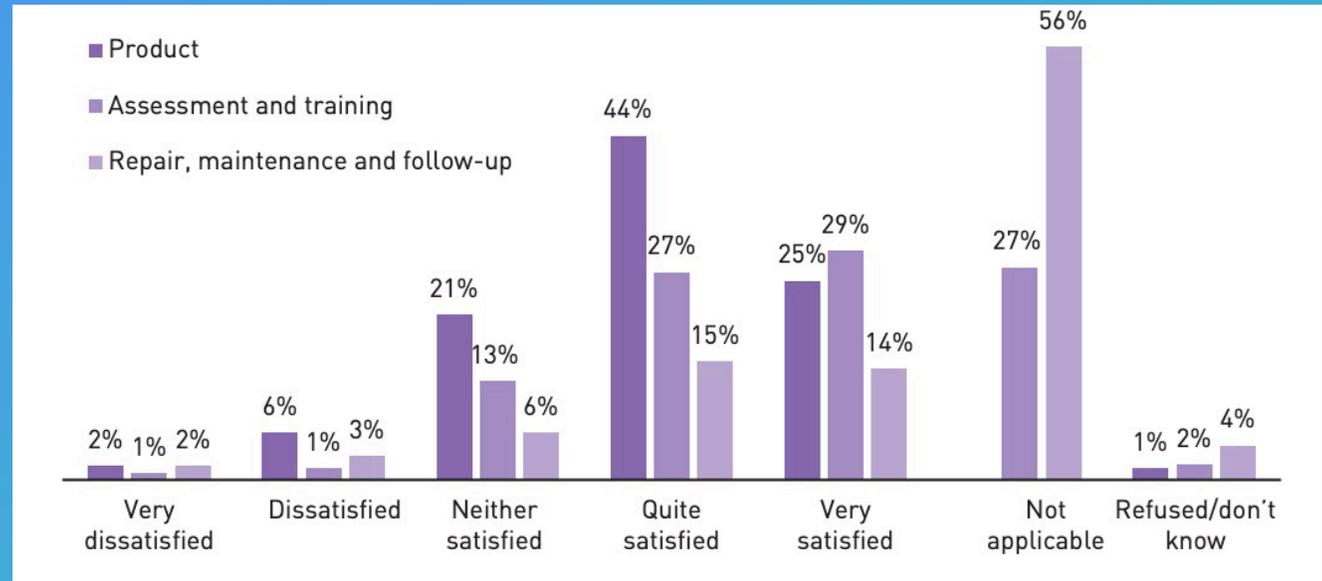

Providers excl. glasses

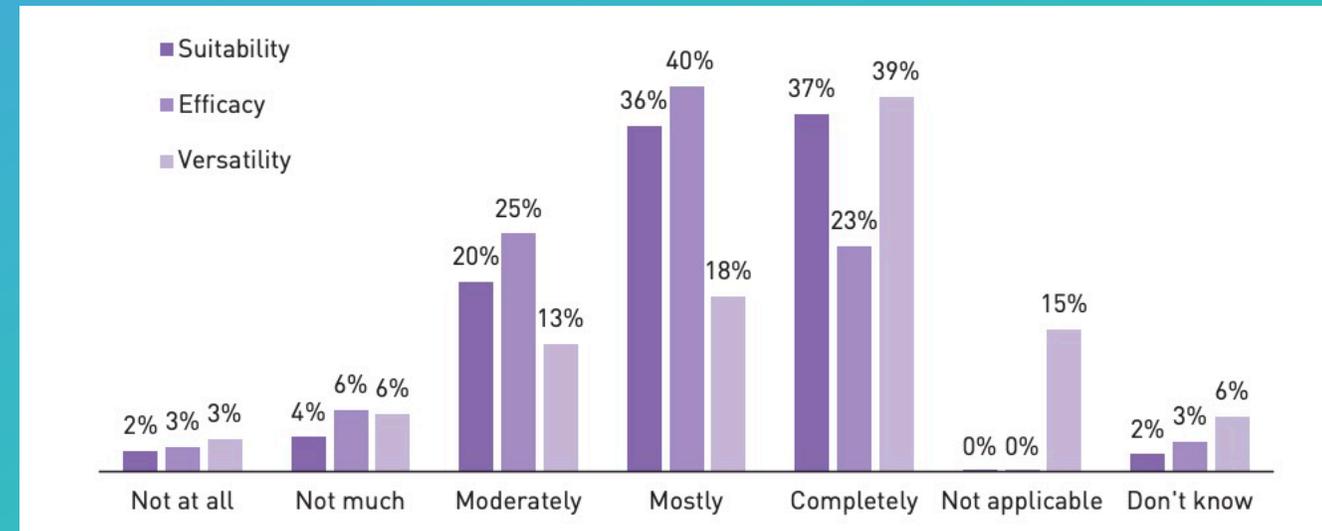

Funding source excl. glasses

## Satisfaction excl. glasses & canes

## Product Appropriateness excl. glasses & canes

# r-ATA Survey Results

## Consumer Satisfaction

# r-ATA Survey

## Key Findings

- 45% reported at least some difficulty in one or more domains  
*(16% had a lot of difficulty or could not function at all in one or more domains)*
- 47% of individuals who reported at least some limitation in functioning have limitations in two or more domains
- 40% need at least one assistive product  
*(12% excl. spectacles)*
- 38% use at least one assistive product  
*(10% excl. spectacles)*
- 80% of individuals using an assistive product other than spectacles paid out of pocket or received it from family or friends
- 8% have an unmet need for at least one assistive product  
*(5% excl. spectacles)*
- 61% of individuals with an unmet need for an assistive product other than spectacles identified cost as a barrier to accessing the product.
