- **739** (54% Female) have difficulty with remembering/concentrating

5,982 (4.8%) people living with disability

Eviction Risk Mapping

IDP sites were assessed based on their risk of eviction. Several factors were put into consideration such as IDP site tenure, type of agreements in place and whether an eviction notice has been issued recently:

- **67%** of sites are landowner authorized occupancy
- **39%** of sites have no agreement in place
- **42%** of those that have agreements have oral agreements
- **58%** of those that have agreements have no agreed end dates
- **16%** of sites have been issued with eviction notice within the last 3 months

50 IDP sites (30%) have been classified as extreme (always floods) and high (floods frequently)

Flood Risk Mapping

IDP sites were assessed based on their risk of flooding:

- **14%** Extreme (always floods)
- **16%** High (floods frequently)
- **24%** Medium (floods infrequently)
- **46%** Low (does not flood)

50 IDP sites (30%) have been classified as extreme (always floods) and high (floods frequently)
