

CCCM Cluster Somalia Dashboard

as of August 2022

General Updates

Site Verification Assessments: Site verification assessments were conducted in #3 districts (South Galkayo, CeelBerde and Hobyo). In South Galkayo 74 IDP sites were verified hosting 15,309 HH (89,788 ind.). CeelBerde had 3 IDP sites verified with a population of 1,490 HH (8,949 ind.) while 2 IDP sites were verified in Hobyo district with a population of 574 HH (3,444 ind.).

Capacity Building: Over 469 community leaders selected from IDP sites in Beletweyn, Kahda, Daynile, Galkayo and Garowe attended capacity building training organized by CCCM partners on topics such as site planning skills, Roles and Responsibilities of Camp management committees, code of conducts and as part of community sensitization efforts on the ongoing drought and reaching affected populations. Some of the capacity areas targeting the community included topics on reporting against evictions threats by community leaders through CCCM partners and Housing, Land, and Property (HLP) focal points

Coordination Meetings: Partners conducted site level stakeholder coordination meetings in Burhakaba, Baidoa and Luuq IDP sites among other locations where local authorities, service providers and members of IDP communities participated. CCCM partners have accelerated activities in sites particularly on service monitoring highlighting gaps and analysis where stakeholders were updated on service gaps in the coordination meetings across sites especially those with high numbers of new arrivals as captured on CCCM new arrival tracking tool. Through the coordination meetings, stakeholders and service providers also highlighted matters affecting displaced communities including evictions, advocating for extra space to settle the newly displaced persons.

Service Monitoring: CCCM partners conducted service monitoring in more than 1,176 IDP sites covering 30 districts to coordinate humanitarian services, to avoid overlap and address identified sectoral gaps by referring them to relevant service providers. Of the 1176 IDP sites managed by CCCM partners monitored in August, 453 of these sites have received new arrivals within the last month. 79% of sites receiving new arrivals received community awareness activities on the availability of services

For more details on Site Monitoring, please see the dashboard: <https://bit.ly/3zZQJxE>

Communication with Communities: CCCM partners continued conducting site-level community mobilization and community engagement sessions with local authority and CMCs. In Beletweyne, Beletweyne, Baidoa Districts; partners held information sessions on service provision, referrals project information, vulnerability criteria and CFM channels targeting especially new arrivals members of the community. Moreover, CCCM partners in close collaboration with Nutrition partners conducted MUAC screening recording numbers of malnourished children coming with newly displaced populations. CCCM partners also coordinated with WASH partners in enhancing hygiene and sanitation activities in IDP sites managed by CCCM partners.

Cash Based Intervention (CBI)/ Cash for Work (CFW): In Bosaso CCCM partners engaged 192 community members on cash-for-work activities to rehabilitate non-functional latrines in close coordination with WASH partners. SWSCRI commission engaged 70 site maintenance committees in Cash-for-work activities involving site maintenance and improvement enabling income generation to the targeted community members which included PLWD.

Complaint and Feedback Mechanism (CFM): August featured the highest number of complaints recorded through CCCM Complaints Feedback Mechanism's (CFM) since its inception in July 2020. A total of 7,726 cases were recorded compared to the 4,959 cases featured in July. This represented a 35% increase in the number of CFM cases reported and recorded in August. This is the sharpest increase of CFM cases recorded that could be attributed to increased reporting as well as CCCM upscaling their CFM activities in more sites as part of drought response scaleup of CCCM activities in more districts to respond to community needs.

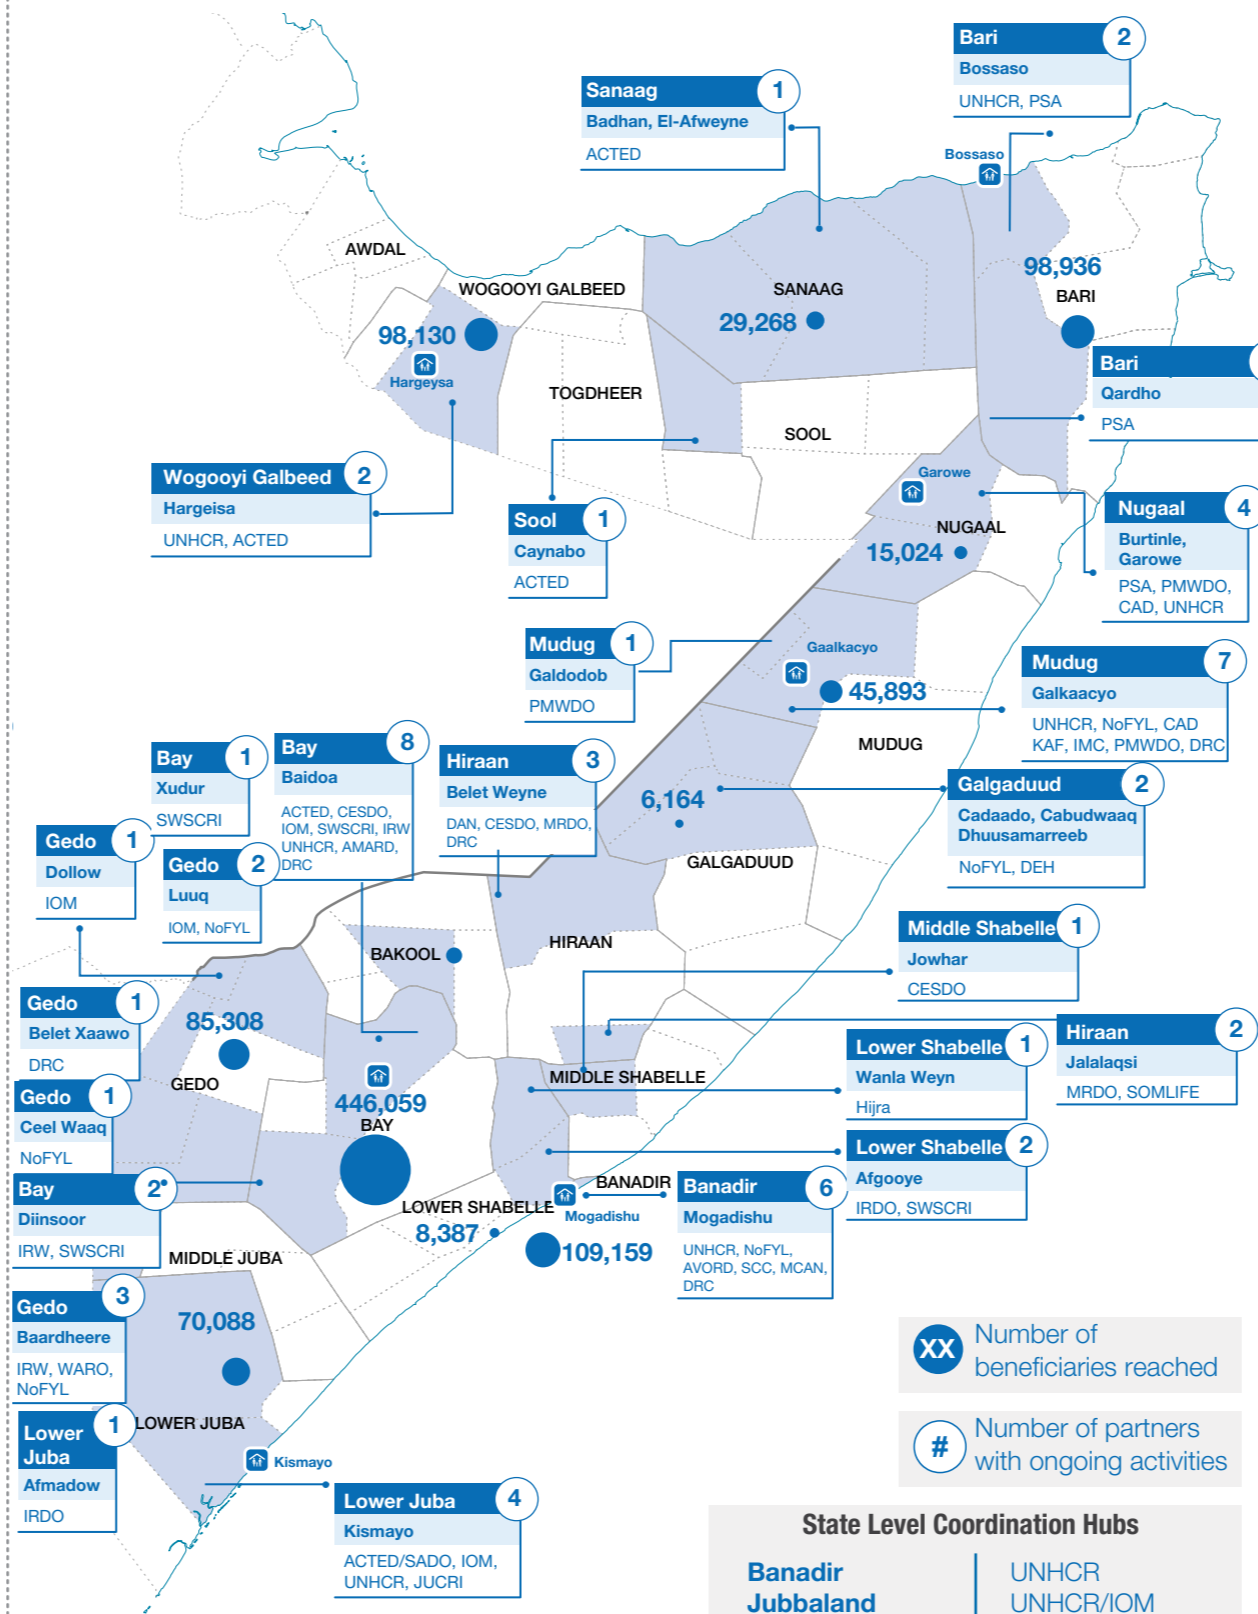

For more details on CFM please see the CFM Dashboard: <https://bit.ly/3DYAC5X>

Site improvement activities: Enhanced site maintenance and site improvement activities through distribution of site maintenance toolkits to support site maintenance committees in Hargeisa, Baidoa and Kismayo were carried across sites. Site maintenance activities such as rehabilitation of communal infrastructures, drainage systems to mitigate floods were implemented in several IDP sites.

New Arrivals: Partners continue recording large numbers of displaced populations arriving at IDP sites in Kahda, daynile, Bardhere and Baidao due to the impact of drought in their areas of origin. In the month of August, at least 149,291 new arrivals were received in 661 IDP sites across 26 districts.

For more details on new arrivals to IDP sites please see the New Arrivals Tool (NAT) Dashboard: <https://bit.ly/3HFYA7F>

Operational presence of cluster partners

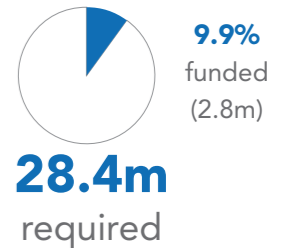

State Level Coordination Hubs

Banadir	UNHCR
Jubbaland	UNHCR/IOM
South West State	UNHCR/IOM
Hirshabelle	UNHCR/DAN
Galmudug	UNHCR
Puntland	UNHCR
Somaliland	NDRA/UNHCR

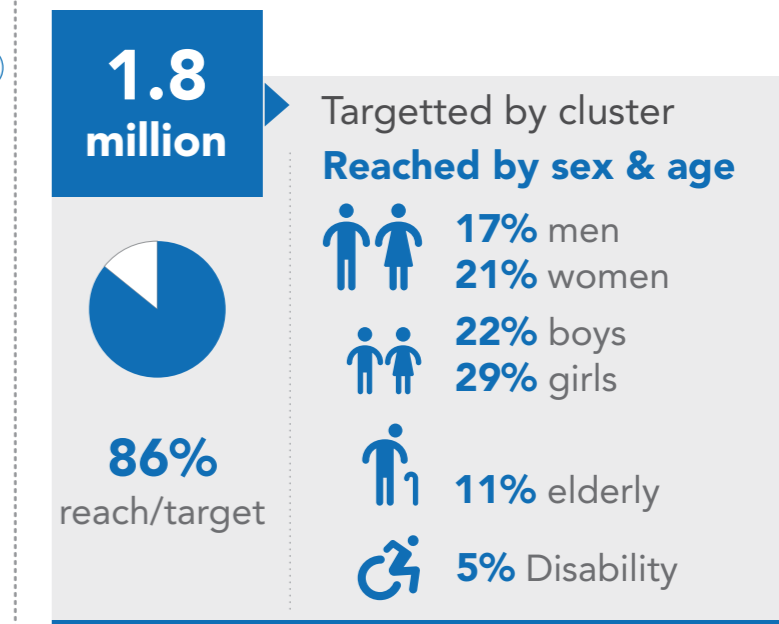

Overall Objective

To improve the living conditions and protection of IDPs in sites and settlements and ensure equitable access to services and assistance of all persons in need, with a clear focus on moving toward attaining durable solutions with full participation of the displaced and host communities.

Cluster Funding
