UKRAINE REFUGEE SITUATION RESPONSE

As of 30 September, 95,375 refugees from Ukraine are currently present in Slovakia and **95,179** are registered for temporary protection.

Border Monitoring: UNHCR and partners carry out monitoring and profiling at border crossing points and registration centres to identify needs, provide services, and make referrals. Ten protection desks have been set up to share crucial information with refugees and to provide counselling.

Blue Dots: 21,404 individuals have been provided with services and referrals at the three Blue Dots established, jointly with UNICEF in Bratislava, Kosice, and Michalovce.

Support to the most vulnerable: UNHCR has scaled up the protection response, identifying and referring children at risk, risk mitigation of gender-based violence, and communicating with refugee communities – through the Help pages, helpline, and the recently launched Telegram channel.

Cash-Based Intervention: Cash assistance has been provided to 53,308 individuals from Ukraine, and vulnerable third-country nationals. UNHCR (which covers 60% of this group) is one of four agencies providing short-term emergency cash assistance in support of the Ministry of Labour, Social Affairs and Family.

HIGHLIGHTS

Coordination: Within the Refugee Response Plan (RRP), UNHCR supports the Government to coordinate humanitarian actors via the Refugee Coordination Forum (RCF) which includes sector-specific working groups aligned with the national response.

Asylum Legislation

To promote international refugee law standards, UNHCR regularly comments on amendments to the asylum law – most recently resulting in strengthening the role of legal counsel in the asylum procedure.

Legislation related to Ukraine

Various favorable legislative changes have been adopted such as the Lex Ukraine 3 package which, among other components, regulates data sharing with international organizations to facilitate the provision of assistance to those most in need. Such data sharing is of particular importance for the cash-based intervention (CBI) programme.

REFUGEES FROM UKRAINE ARRIVING IN SLOVAKIA

In this [video](#), Ukrainian refugees arrive to Slovakia, where they are welcomed by UNHCR and partners. They share their uncertainty about what their future holds, but also their hope.

Key Priorities

- **Access to territory and protection:** UNHCR monitors the situation of people in need of international protection seeking access to the territory, the asylum procedure and temporary protection, at Slovakia's border with Ukraine and across the country. UNHCR also advocates for the inclusion of persons under temporary protection in national health, legal, and protection systems.
- **Coordination:** UNHCR supports the Government to coordinate humanitarian actors via the Refugee Coordination Forum (RCF) for the Slovak Republic.
- **Legal Assistance:** UNHCR provides legal counselling for asylum-seekers and people applying for temporary protection.
- **Community-based protection:** UNHCR supports refugee-led organizations and other community structures to help them respond to protection and inclusion challenges.
- **Child Protection:** UNHCR enhances and strengthens the national systems to better serve the best interest of refugee children.
- **Gender-Based Violence (GBV):** UNHCR supports national systems in strengthening the capacity to prevent, mitigate and provide a comprehensive adequate and safe response to GBV.
- **Integration:** UNHCR champions and supports community-based approaches; it promotes social cohesion and integration objectives through projects that involve both refugee and local communities; and it advocates for long-term integration.
- **Education:** UNHCR advocates for the inclusion of displaced pupils from Ukraine into the national school system, expand access to quality tertiary and higher education for refugees, and build the

capacity of the national education system to accommodate displaced students.

- **Cash-Based Assistance:** UNHCR supports the Government by providing short-term emergency cash assistance to meet the material needs of refugees from Ukraine.
- **Supporting the national frameworks:** UNHCR aims to strengthen national frameworks and government protection structures by offering technical support and expertise.
- **Capacity Building:** UNHCR is bolstering capacity-building and training on refugee-specific needs for partners and state authorities.

Working with Partners

- UNHCR works with five Partners to respond to the most pressing needs of individuals fleeing Ukraine under temporary protection in Slovakia: the Slovak Humanitarian Council, Human Rights League, People in Need, Mareena, and SME SPOLU ("We are together"), and leads the refugee coordination structure in Slovakia, in support of the response.

Statelessness

- Slovakia is a party to both Statelessness Conventions. UNHCR advocates with the government to develop a statelessness determination procedure.

UNHCR Presence in Slovakia

Staff:

17 National Staff
 31 International Staff

Offices:

1 National Office in Bratislava
 1 Field Office in Kosice
