

OVERVIEW

Following poor rainfall in recent years, along with changing climatic conditions, the Horn of Africa region is facing a catastrophic drought. The drought is severely affecting millions of refugees, internally displaced persons (IDPs) and their host communities in Ethiopia, Kenya and Somalia. This dashboard provides a summary of new internal and cross-boarder displacements from and into drought-affected areas, as conflict, insecurity and environmental elements continue to displace communities across the region. It also presents the existing refugee populations hosted in drought-affected areas.

NEW DISPLACEMENTS

NEW REFUGEE AND ASYLUM-SEEKER ARRIVALS INTO DROUGHT AFFECTED AREAS SINCE JAN 2022

New refugee and asylum-seeker arrivals into drought affected areas					
By location in Country of Asylum	By Country of Origin				Total
	Ethiopia	Somalia	South Sudan	Others	
Dadaab	354	39,895	112	107	40,468**
Kakuma	748	1,622	15,767	10,079	28,216
Kenya Total	1,102	41,517	15,879	10,186	68,684
Melkadida Camps	-	11,601	-	-	11,601
Ethiopia Total	-	11,601	-	-	11,601
Somalia Total	2,426	-	-	-	2,426
Grand Total	3,528	53,118	15,879	10,186	82,711

*Figure includes registered and non-registered new arrivals.
**This figure is part of more than 80,000 arrivals to the Dadaab camps in the last several years in urgent need of shelter and other services.

 **1.70M**

NEWLY INTERNALLY DISPLACED POPULATION SINCE JAN 2022 DUE TO DROUGHT

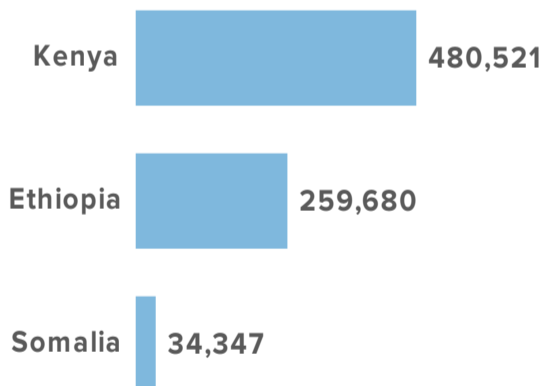

*The context in Ethiopia remains dynamic and interagency partners are aware of secondary and tertiary displacements. To prevent double counting, some IDP figures calculated during interagency assessments, and previously reported on this dashboard, have been removed from the overall total until further verification can take place.
By the end of November, interagency partners estimate some 416,000 secondary and tertiary displacements.
