

OVERVIEW: There are now an estimated 2.9 million forcibly displaced due to the recent outbreak of conflict in Sudan, including 2,231,523 internally and 641,445 in neighbouring countries. Sudan was already hosting large refugee populations before being impacted by this new emergency. Sudan and hosting countries need additional support to provide protection and critical life-saving assistance. New asylum-seekers, refugees, refugee returnees and other arrivals' most urgent needs identified to date are water, food, shelter, health, and core relief items. In terms of protection, the current priority activities are the registration of new arrivals, relocation away from border areas, identification of specially vulnerable families and persons with specific needs, and putting mechanisms in place to prevent and respond to gender-based violence and ensure alternative care services for unaccompanied refugee children.

641,445

Estimated newly arrived individuals

495,716

Total newly arrived refugees/asylum-seekers

Arrivals by population and estimated gender type

An estimated 49% of new arrivals are children. This estimation is based on data from South Sudan, CAR, Ethiopia, and those pre-registered in Chad.
