

GBV Sub-Working Group Moldova 2023 Work Plan

RRP Objective: The GBV Sub-Sector Working Group (GBV SWG) is a coordination body with the objective to strengthen GBV prevention, risk mitigation and response in emergency settings and works to facilitate multi-sectoral interagency action and collective advocacy. It aims to ensure coherent, coordinated and effective GBV prevention, assessing risk mitigation measures and response approaches through the mobilization of relevant government institutions, international organizations, UN Agencies, national and international non-governmental organizations (NGOs), civil society networks, national refugee-led organizations, refugee women-led organizations.

Scope of the Work Plan: The GBV SWG work plan is a plan to support and include all partners of the SWG. The work plan applies to activities in all locations of Moldova where refugees reside, including refugee temporary accommodation, other shelters/sites, and host community locations where refugees may be staying/hosted in private accommodation. It applies to locations where refugees enter Moldova and also those in transit to other destinations.

Indicators:

of specialized service providers, disaggregated by gender and age trained on GBV prevention, response and risk mitigation (inter-sectoral capacity building)

of individuals that received information on rights and available services related to GBV activities (inter-sectoral AAP)

of assessments on GBV (inter-sectoral assessments)

of individuals provided with GBV services

Activity	Output	Indicator	Q1	Q2	Q3	Q4	Responsible	Comment
