SUDAN EMERGENCY

# Population Movement from Sudan

*as of 2 Nov 2023*

**OVERVIEW:** There are now over 6.2 million forcibly displaced due to the outbreak of conflict in Sudan, including 4.9 million internally and nearly 1.2 million in neighbouring countries. Sudan was already hosting large refugee populations before being impacted by this new emergency and, like hosting countries, needs additional support to provide protection and critical life-saving assistance, including for those who have been secondarily displaced within the country. Urgent needs include water, food, shelter, health, and core relief items. The current priority activities are the registration of new arrivals, relocation away from border areas, identification of especially vulnerable families and persons with specific needs, and putting mechanisms in place to prevent and respond to gender-based violence and ensure alternative care services for unaccompanied refugee children.

**6,244,689**
Forcibly Displaced

**4,856,294**
