Uganda Refugee Response Plan (RRP) 2022-2023

January - December 2023

Overview

The Uganda Cash Working Group (CWG) supports the humanitarian community to provide assistance using cash and voucher assistance (CVA). The forum has technical functions such as sharing lessons learnt, harmonizing approaches to delivering cash, developing guidelines as well as strategic functions to avoid gaps and duplications, engaging advocacy efforts to promote relevant assistance and influence policy. The CWG focuses on multi-purpose cash transfers (MPC) and sectoral cash grants.

Achievements / challenges of the sector

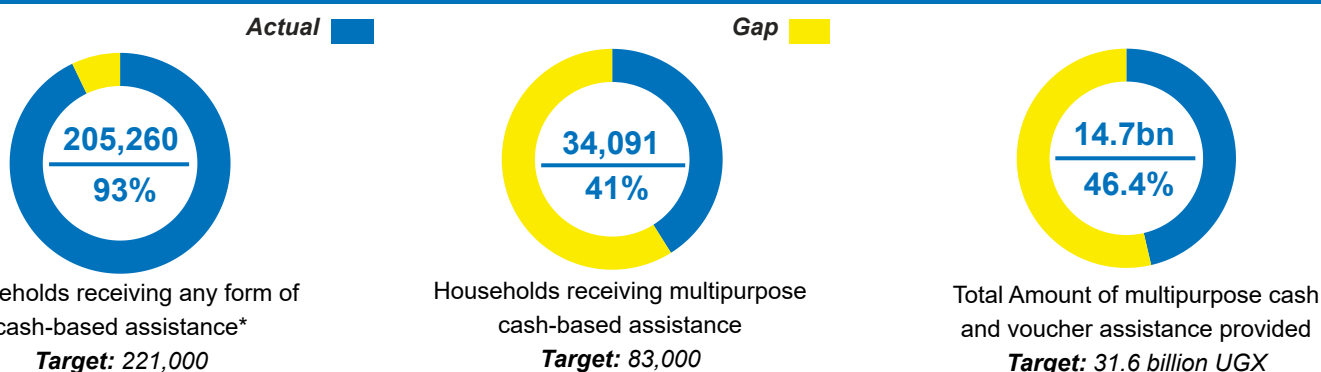

The refugee response is evolving, with focus shifting to self-reliance for forcibly displaced and stateless persons hosted in the country and cash based interventions are important for this shift. Assistance is increasingly being provided through digital services such as mobile money as this allows vulnerable families to receive cash assistance in a timely, efficient and discrete manner. With the help of WFP and partners, financial literacy trainings continue to be a priority as a way to promote safe and meaningful use of the assistance. As part of the transition to the new cash coordination model, the onboarding of the CWG co-chair was completed. Through a rigorous consultative process, the minimum expenditure basket (MEB) was updated for the operation. In collaboration with the Bank of Uganda, the CWG saw minimum standards for financial literacy launched marking a significant step in the quest for financial inclusion of refugees through access to credit and utilization of other financial services. These are seen in the longer run to contribute to more coordinated and holistic CVA interventions that can contribute to humanitarian cash as an entry point for financial institutions. Despite the above, reporting gaps still exist leading to the absence of an accurate overview of actors involved, and a gap in beneficiary reporting resulting in a risk of possible duplication of assistance.

Key priorities and gaps foreseen for 2024

As part of the Inter Agency Standing Committee (IASC) cash coordination model adopted in 2022, the leadership of the Uganda CWG is now fully constituted with UNHCR and the Uganda Red Cross as co chairs, while the Government of Uganda provides the oversight role. WFP will continue
