COORDINATION

UKRAINE

In Ukraine, UNHCR leads three Clusters, namely Camp Coordination and Camp Management (CCCM), Protection, and Shelter and Non-Food Items (NFIs). The CCCM Cluster was activated in March 2022 and coordinates 18 UN and NGO partners across three hubs, with the aim of supporting 157,000 people in collective sites in 2024. The Protection Cluster consists of 166 partners, including sub-clusters, and operates three coordination hubs to reach an anticipated three million people in 2024. The Shelter and NFI Cluster coordinates 98 active partners across three coordination hubs, targeting 3.9 million people in 2024 with NFI kits, emergency shelter and housing repairs. UNHCR also co-chairs the Protection Strategy Working Group under the Humanitarian Country Team, and the Accountability to Affected Populations (AAP) Working Group. Through its leadership in these areas, UNHCR promotes the centrality of protection, as well as meaningful engagement and participation across the response.

REGIONAL REFUGEE RESPONSE

Through the [2024 Regional Refugee Response Plan \(RRP\)](#), 313 partners in Belarus, Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Republic of Moldova, Romania and Slovakia work towards ensuring refugees have effective access to legal status, protection and rights in their host countries and that refugees with specific needs and vulnerabilities have access to targeted support and assistance. The plan also aims at strengthening refugees' socio-economic inclusion in their host communities and increasing their self-reliance, while at the same time reinforcing social cohesion between refugees and their hosts. In support of the government-led responses across the region, UNHCR leads and coordinates the implementation of the inter-agency RRP in line with the Refugee Coordination Model, collaborating and consulting with authorities, aid agencies, civil society, and with affected populations.
