Socio-economic inclusion	**R1. # of individuals who benefitted from livelihoods and economic inclusion interventions**	**Description:** Socio-economic inclusion is a process that supports refugees, stateless persons, third country nationals and other forcibly displaced persons moving from Ukraine, in integrating into the economies and social fabric of host countries and communities. The indicator should count the total number of persons supported in their socio-economic inclusion process. The indicator may be disaggregated by the different sub-sectors as per the RIWG working definition on socioeconomic. inclusion. Development programmes include initiatives by development actors aiming at supporting the socio-economic inclusion of vulnerable persons through direct assistance in the below-listed sub-sectors. Proposed disaggregated indicators by sub-sector: # of individuals who received support in technical and vocational education and training (TVET); # of adults who received support in language training. # of individuals supported to access childcare and kindergarten; # of individuals who received support in accessing employment (information, counselling, coaching, mentoring, job matching) and skills (skills assessment, skills recognition, upskilling); # of individuals who received support in access to medium- to long-term independent housing; # of individuals who received support in entrepreneurship and financial inclusion; # of individuals who received support in accessing social protection; # of individuals supported with cash for socio-economic inclusion **Excluded:** Formal and informal education support for children and adolescents should be reported under R7.1 and R5.	**583,899**	**268,377**

		Awareness raising, information campaigns and online platforms aiming at informing on socio-economic inclusion issues. Support for accommodation in collective centres should not be reported here. Cash-for rent shall be reported under in country frameworks.		
Protection	**R2. # of individuals who have been supported in accessing protection services**	**Description:** Persons who benefit from support from humanitarian actors to access protection services in the country of asylum. It should be noted that the indicator reports as a cumulative figure the number of individuals who have effectively received those services, not those who can potentially have access. Further, it is important to note that this will include beneficiaries previous reported under other sub-sectors such as Child Protection and GBV: **# of children provided with child protection services** **# of people who benefitted from specialized GBV programmes** Services can be provided in the context of community-based protection activities, household or individual interventions. **Wherever possible age, gender & disability disaggregation should be provided to assist with accurate reporting.** Link to the guidance note: Document - Protection Methodological Note	**1,319,550**	**1,252,111**

Education	**R5. # of children and youth supported with education**	Education means programmes supervised by national authorities including early childhood education, primary, secondary, tertiary, technical and vocational education and training (TVET) and non-formal education that leads to academic or professional certification as well as connected education.	**453,182**	**277,590**

	programming (includes support to enrol in formal and non-formal)	For this indicator, education support primarily is defined as including: 1) financial assistance to facilitate enrolment (in the form of scholarships, grants, CBIs, transportation vouchers to reach school), 2) material assistance necessary to attend school (such as school kits / uniforms or other school supplies), 3) documentation or certification assistance for documents necessary to attend school **Non-formal education (NFE)** is programming that (i) supports catching up on lost learning with clear pathways to transition to, or support in, the continuation of formal education and/or ii) leads to accreditation. NFE includes participation in Accelerated Education Programmes (AEP) and other non-formal support, including remedial, catch-up and bridging programmes. To avoid double counting individuals, it is recommended to identify and report the greatest common denominator. Reporting should include unique counts of individuals who received each type of support and then a final figure that calls for the unique count of individuals who received at least one of the listed types of support to enrol.
