Operational Priorities

Update on IDP Registration

Elena Ferrari, Senior Inter-Agency Coordinator (UNDP)

Update on IDPs Registration

Overview

Self-registration of IDPs inside and outside shelters = MoIM with LRC and DRM

Concerns about security, verification of actual displacement, not adopted by all Governorates and access to data from different stakeholders to go through MoSA

Registration of IDPS inside and outside shelters through enumerators = MoSA with UNICEF and WFP.

Additional initiatives from municipalities and other stakeholders.

175,000 HHs outside shelters (prioritized)

75,000 HHs inside shelters

Aim of the registration process broader than cash and assistance but active displacement monitoring.

Update on IDPs Registration

Two Phases

Phase 1: LRC to compile the data from the multiple sources in one database hosted by GoL, and in agreement with governors can be shared with humanitarian partners who have capacity to respond.

Phase 2: building on database cleaned in phase 1, MOSA will lead the full registration process using the registration form that was circulated to sectors, for a 40 days process.

Update on IDPs Registration

Key Updates and Procedures for Ongoing Registration of IDPs

1. Current assistance should go on with the only exception of cash assistance. For the latter, contact MoSA to coordinate and instructions will be given within 24h.
2. MoSA system builds on the existing one(s) by gathering all information and transferring them into MoSA database to plan the work.
3. Small media campaign is under discussion, MoSA enumerators will wear uniforms and IDs and municipalities will be informed and will support enumerators. Television ads have been discussed but not yet agreed.
4. Consent need to be given for registration. Those that don't want to be registered cannot be forced. MoSA ensures that information will be treated with confidentiality, used by the Ministry and partners for assistance and no names will be shared.
5. The immediate goal of the registration exercise is the cash assistance then the data might be used for all future interventions for all sectors.

Update on IDPs Registration

Key Updates and Procedures for Ongoing Registration of IDPs (Cont.)

6. The MoSA registration exercise is supposed to start next week and its duration is estimated to be 40 days for all IDPs in the whole country.
7. Three criteria of prioritization: people outside/inside shelters and geographic areas to be agreed with other Ministries. People outside shelter will be registered first as well as people from specific geographic areas. The enumerators will work at the same time in different governorates.
8. The exercise is organized at central level and the sub-national level will be informed when the registration is about to start.
9. The way to identify IDPs is a combination of muktars, cross-checking with PHC, word of mouth among IDPs and door to door.

People without Shelter: Protection & Shelter Strategic Note

Sophie Etzold, Protection and GBV Sector Coordinator (UNHCR)

Abdulrahman Abdulghani, Shelter sector Coordinator (UNHCR)

People without Shelter: Protection & Shelter Strategic Note

Strategic Priorities: Supporting People without Shelter

Purpose: Interagency approach to address lack of shelter as a result of the recent escalation

- 1% overall without shelter, but up to 6% in Bekaa and 5% in Beirut (DTM);
- Wide range of reasons, but disproportionately affected are refugees and migrants due to lack of access to collective sites
- Wide range of actors already responding; long history of working with street connected people

People without Shelter: Protection & Shelter Strategic Note

Objectives and Approach

Objectives:

- Protect and support people while without shelter.
- Provide quality, appropriate shelter for homeless IDPs.

Approach:

- Holistic, protection-sensitive.
- Coordinated and collaborative.
- Urgency.
- Geo-split/area based.
- Participation/AGD sensitive.
- Expanding shelter options/policy change.
- Data driven planning.

People without Shelter: Protection & Shelter Strategic Note

Key Programmatic Interventions

Assessment monitoring and planning

Community drop-in hubs in with minimum package of services including:

- Information provision.
- Outreach, counselling, identification and referral.
- Assessment of shelter needs and referral to shelter options.
- Provision of basic needs and food.
- WASH services and telephone charging.
- Safe space for women/children.

Connecting people to shelter and expanding shelter options (in line with shelter strategy)

- Repair of Additional Public Buildings, Expansion of Informal Settlements (ITS) for refugees, Rehabilitation of Unoccupied Shelters with Rent Agreements, Emergency Tent/Rubhall Establishment on Government-Identified Land (on hold), Cash for Shelter.

People without Shelter: Protection & Shelter Strategic Note

Way Forward & Cross-Sectoral Collaboration

- Consult authorities, protection, shelter and other sector partners for review/input.
- Consolidate and share harmonized information/counselling lines.
- Update mapping of location of people without shelter (DTM and SMC sector).
- Update mapping of community centers and mobile activities as hubs for displaced persons without shelter.
- Identify limited number of sites to rollout the approach and undertake self-assessment to identify support needs.
- Provide needed support to community hubs, as technical guidance, information tools, capacity building, linking to funding options etc.
- Shelter sector to work with authorities to confirm plans for scaling up shelter.

LRP Planning 2025
