Official Endorsement of the 2026 Lebanon Response Plan

Under the joint chairmanship of the Deputy Prime Minister and UN Resident and Humanitarian Coordinator for Lebanon, the Lebanon Response Plan (LRP) Steering Committee convened on the 10th of December 2025. The Committee reaffirmed its commitment to principled, inclusive, and coordinated assistance, strengthening national institutions, and advancing stabilization and recovery, while supporting safe, dignified, and sustainable returns of displaced Syrians. The 2026 LRP calls for \$1.62 billion to support 1.5 million people in critical need of assistance and protection services, including vulnerable Lebanese, displaced Syrians, Palestinian Refugees from Syria (PRS), Palestine Refugees in Lebanon (PRL), and migrants. The press release is available here in [Arabic](#) and [English](#).

Post-December 2024 Arrivals from Syria Inter-Sector Response Dashboard – January 2025 to November 2025

The centralized dashboard, developed by the Inter-Sector Coordination Group (ISCG), is designed to strengthen coordination and ensure accurate inter-sector reporting on the response to post-December 2024 arrivals from Syria. It consolidates sector-reported data from ActivityInfo and automatically reflects updates as sectors update their figures, reducing discrepancies. Moreover, the dashboard provides LRP stakeholders with insights to support planning and evidence-based decision-making. The post-2024 arrivals from Syria inter-sector response dashboard is available [here](#).

UNHCR-Supported Voluntary Repatriation of Displaced Syrians in Lebanon – 30 November 2025

This overview was prepared by UNHCR to provide an update on the Voluntary Repatriation (VolRep) of Displaced Syrians in Lebanon. Since January 2025, 379,103 Syrian individuals known to UNHCR have been inactivated from UNHCR's database due to confirmed and presumed returns to Syria. By the end of November, a total of 45,195 Syrian individuals known to UNHCR underwent the facilitated VolRep programmes, including completing voluntariness assessments, issuance of Repatriation Forms, and provision of a return cash grant of \$100 per returning individual. 74,231 Syrian individuals (13,897 households) have expressed interest and remain in the pipeline for the UNHCR-facilitated VolRep programme. UNHCR and IOM have also facilitated 11 organized return movements of 2,499 Syrian individuals through Arida and Masnaa borders to Rural Damascus, Damascus, Homs, Hama, Idlib and Aleppo. A schedule of 2 further organized return movements for the remainder of the year is also being scheduled. The latest update on VolRep is available [here](#).

Integrated Food Security Phase Classification Analysis Report – November 2025 to March 2026

The latest Integrated Food Security Phase Classification Analysis Report (IPC) released by Lebanon's Ministry of Agriculture, FAO, and WFP reveals that the acute food insecurity situation in Lebanon has further eased compared to the first half of 2025, but there are still a significant number of people facing high levels of acute food insecurity. Between November 2025 and March 2026, around 874,000 Lebanese residents, Syrian refugees, Palestine refugees and post-2024 arrivals¹ continue experiencing IPC Phase 3 or above (Crisis or worse). This includes 22,000 people experiencing large food gaps and high levels of acute malnutrition, classified in IPC Phase 4 (Emergency) and 851,000 people who are unable to meet their essential food requirements and resort to unsustainable coping measures, classified in IPC Phase 3 (Crisis). These populations require urgent humanitarian action to reduce food gaps, protect and restore livelihoods and prevent acute malnutrition. The Integrated Food Security Phase Classification Analysis Report is available [here](#) and the Lebanon IPC Page is available [here](#).

UNHCR Protection Monitoring Report – Q3 2025

The ongoing protection monitoring report is conducted by UNHCR to analyze trends in the protection environment and risks facing refugees. This is implemented at the regional and at the national levels by UNHCR's protection monitoring partners. Partners conduct interviews with refugee households and key informants to gather their feedback on the overall protection environment in Lebanon. The Protection Monitoring Report for Q3 2025 is available [here](#).
