

Refugees and Asylum-seekers Movement and Presence

Refugees and asylum-seekers recorded at the border points

427,898

Individuals arrived

Sudanese	98.9%
Eritrean	0.7%
Other	0.4%

The refugees and asylum-seekers arrival data is based on the joint border monitoring of RRC, UNHCR and IOM collected at official border points. The data does not include refugees/asylum-seekers who crossed through unofficial border points or at night, when the monitors are not present. This data set excludes South Sudanese returnees and third-country nationals.

Refugees and asylum-seekers presence at camps and transit centres - proGres

263,193

Individuals Registered

● Male ● Female

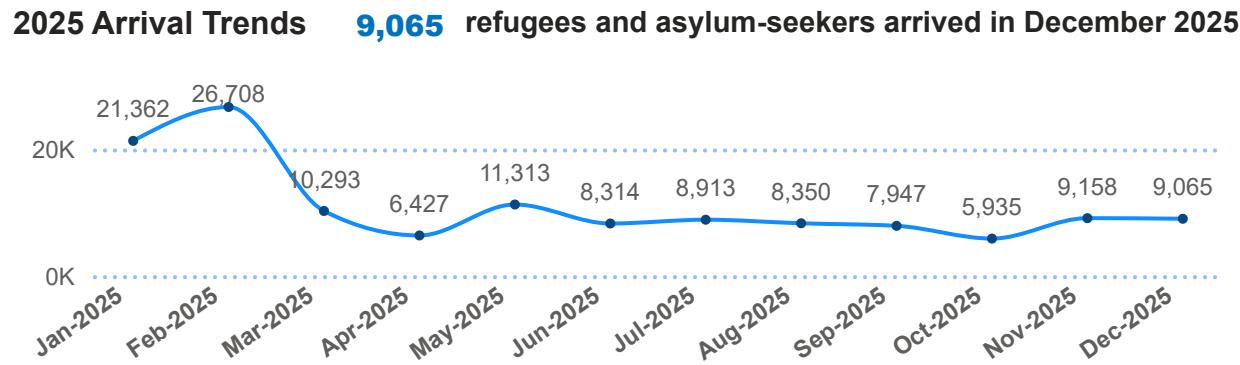

The refugees and asylum-seekers data is comprised of people officially registered at refugee camps/settlements in UNHCR's proGres database. Data on arrivals at border points and presence in camps/settlements may vary due to people crossing at unofficial border points or finding their own way to these sites for registration.

Registered individuals by nationality

Sudan	96.44%
Eritrea	1.36%
Ethiopia	0.95%
Rest	0.65%
DRC	0.61%
