Sudanese Returns from Abroad

as of 15 September 2026

Findings are based on sample border monitoring in Sudan which has been in place since July 2024. This monitoring does not identify registration status, refugee status, or other movement categories and therefore results should be read as indicative of the concerns raised by people returning to Sudan.

49% had applied for asylum in departing countries

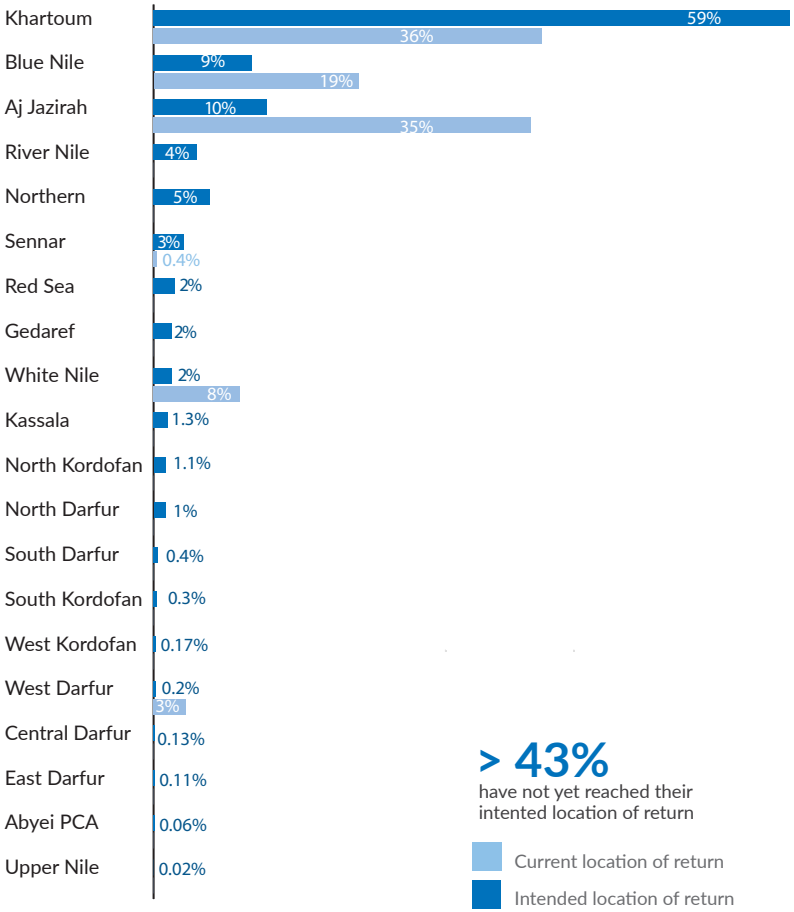

41% reported protection risks in departing countries

45% reported long processing times at the border

16% reported family members were left behind

40% participated in economic activities prior to displacement

Intended state of return vs current location

> 43% have not yet reached their intented location of return

Current location of return

Intended location of return

Assistance and protection priorities by intended state of return (cumulative)
