The maps provide proportional indicators for the number of refugees originating from each county (administrative level 2) in South Sudan, representing approximately 76% of the refugees who have arrived in Ethiopia since 15 Dec 2013 (those who have undergone registration level 2). The data on areas of origin was captured based on the former administrative units of South Sudan that existed pre-independence.
 The boundaries and names shown and the designations used on the maps do not imply official endorsement or acceptance by the United Nations. Final boundary between the Republic of Sudan and the Republic of South Sudan has not yet been determined. *Final status of the Abyei area is not yet determined.
