

South Central Dashboard

UNHCR BO Somalia, Nairobi

Period: 01-Sep-11 to 21-Oct-11

Total Displacements from South Central: **49,000**

Total Displacements within Somalia: **56,000**

Sources of Displacement

Where are these IDPs coming from?

Regions	People	Top 10 Districts	People
Bay	13,000	Banadir	8,200
Gedo	8,900	Baydhaba	7,200
Banadir	7,600	Afgooye	5,600
Shabelle Hoose	6,800	Diinsoor	4,500
Juba Hoose	1,700	Garbahaarey	3,500
Juba Dhexe	1,400	Baardheere	2,400
Bakool	700	Marka	2,300
Hiraan	300	Belet Xaawo	2,300
Shabelle Dhexe	200	Saakow	1,000
Galgaduud	100	Qansax Dheere	1,000

Areas Receiving IDPs

Where did these IDPs travel to in Somalia?

Regions	People	Top 10 Districts	People
Gedo	15,000	Banadir	9,000
Banadir	9,000	Belet Xaawo	6,600
Shabelle Hoose	5,700	Qansax Dheere	3,600
Juba Hoose	4,700	Ceel Waaq	3,500
Bay	4,400	Afmadow	3,300
Bakool	1,700	Afgooye	2,600
Shabelle Dhexe	600	Baardheere	2,600
Hiraan	300	Doolow	1,900
Galgaduud	200	Kismaayo	1,400
Juba Dhexe	-	Kurtunwaaq	1,400

Correlation of IDPs

Correlation is comparison between sources and areas receiving displacements. A region with a bigger blue pie indicates more IDPs arriving than leaving that region and vice-versa.

Between 1 September and 21 October 2011, displacements were mainly recorded in South Central with approximately 49,000 out of 56,000 displacements recorded in all three regions. 26,000 displaced people reported drought as the major cause of displacement in South Central followed by insecurity (11,000), forced return (9,200), lack of livelihood (2,900) and clan conflict (200). The displacements originated mainly from Bay (13,000), Gedo (8,900), Mogadishu (7,600) and Shabelle Hoose (6,800) regions. The IDPs moved to Gedo (15,000*), Mogadishu (9,000), Shabelle Hoose (5,700) among other regions.

Top 5 Reasons for Displacement

Priority Needs

Top 5 Coping Mechanisms

This data has been collected through the IASC Population Movement Tracking (PMT) system. PMT is designed to capture population movement trends, not cumulative population data. Due to the fluid nature of displacement in Somalia and in order to avoid capturing multiple displacements, UNHCR limits the reporting range to a period of three months - these figures should therefore not be added and used cumulatively.

* Mogadishu returns in the South Central dashboard includes all reasons of displacements. On the other hand, Mogadishu influx dashboard includes only movements due to Insecurity, Evictions, Drought and lack of livelihood, thus the difference in the figures.

Note: 1. All figures are estimates. 2. Displacements within regions are included in the figures above.
