Summary

 PRMN is a UNHCR-led trend analysis project that aims to monitor movements of displaced populations into and within Somalia. On behalf of UNHCR, NRC and 37 local partners in the field in Somalia (South Central regions, Puntland and Somaliland) are collecting data through interviews with refugee and IDP returnees, and with IDPs and host communities conducted at strategic locations along travel routes. Reports are verified and published by UNHCR to broaden insight into movement trends for analytical and programmatic purposes.
