UPDATE ON ACHIEVEMENTS

Operational Context

Between 1 and 3 November, Yemen was hit by a rare tropical cyclone, the most powerful storm Yemen has seen in decades. Cyclone Chapala has brought hurricane-force winds, torrential rain and huge waves to the southern Yemen coastline (OCHA Yemen Flash Update – November 4). This extreme weather condition might explain that no new arrivals travelled to Somalia during the reporting period. Together with partners of the UNHCR-funded Protection and Return Monitoring Network (PRMN), the Mixed Migration Task Force (MMTF) and the Puntland and Somaliland New Arrivals Task Forces, UNHCR rose awareness about the dangers of crossing into Yemen, following the cyclone announcement.

Achievements

Protection

PUNTLAND

Achievements and Impact

- During the reporting period, UNHCR registered 28 Yemeni individuals as refugees (18 families). A total of 1,918 Yemeni refugees (756 cases) were registered by UNHCR Bossaso since the beginning of the Yemen situation in late March 2015. UNHCR and the government are conducting verification exercise to remove cases of dual nationality (Somali-Yemenis), and reconcile the numbers of Yemeni arrivals at the ports and the number of Yemeni registered refugees, which is currently higher.
- The Danish Refugee Council (DRC), through UNHCR funding, has distributed subsistence allowance to Yemeni refugees in Bossaso, Gardo, Garowe and Badan districts of Puntland.
- DRC is also undergoing registration/verification of Somali returnees from Yemen in Gardo, and registered so far 2,386 returnees (344 families) who joined 11 IDP settlements. UNHCR, in conjunction with the DRC, is capturing biometrics for the above mentioned 344 families at Bossaso second reception centre. Those verified will be given a reinstallation cash grant by DRC, through UNHCR funding.
- The Somali Red Crescent Society (SRCS) provided Restoring Family Links (RFL) free phone calls for 33 Somali returnees.
- Tadamun Social Society (TASS), with the support of UNICEF, provided one separated and one unaccompanied child (two boys) with psychosocial support, material support and reunited them with their families through Identification, Documentation, Tracing and Reunification (IDTR) support.
- TASS, with the support of UNICEF, and through the coordination of Save the Children International (SCI), assisted a mother and six children in integrating into an IDP settlement in Bossaso through coordination with the settlement leaders and transportation assistance.

SOMALILAND

Achievements and Impact

- During the reporting period, 158 Yemeni refugees (64 cases) have been registered in Hargeisa by the Somaliland Ministry of Resettlement, Rehabilitation and Reconstruction (MRRR). A total of 2,291 Yemeni prima facie refugees (1,135 cases) are registered with UNHCR Hargeisa as of 8 November 2015, including 62 Yemeni refugees (23 cases) that have moved from Bossaso to Hargeisa and have been entered in UNHCR's ProGres registration database (as case transferal). UNHCR and the government are conducting verification exercise to remove cases of dual nationality (Somali-Yemenis), and reconcile the numbers of Yemeni arrivals at the ports and the number of Yemeni registered refugees, which is currently higher.
- During the reporting period, 19 Yemeni asylum seekers (12 cases) have been registered in Hargeisa by MRRR. These Yemenis arrived to Somaliland before 28 March 2015. Discussions are currently ongoing between UNHCR and MRRR to change their status to "prima facie refugees" as the ones arrived after the outbreak of the conflict in Yemen.
- On 5 and 7 November, UNHCR Hargeisa organized a blanket cash distribution for the Yemeni refugees who did not collect their first subsistence allowance installment on 15 October. A total of 111 individuals (62 cases) collected their first installment accordingly.
- Over the month of October, UNHCR's partner Action Africa Help International (AAH-I) assisted Yemeni refugees through business training (131 individuals) and with guidance on business market opportunities (153 individuals).

Health

PUNTLAND

Achievements and Impact

- TASS, with the support of UNICEF, provided emergency medical support to five children during the reporting period.

SOMALILAND

Achievements and Impact

- Since April 2015, a total of 441 Yemeni refugee cases (48% of all refugees/asylum seekers receiving health services in Somaliland) were supported by UNHCR's partner HYDA for medical services such as consultations, referrals, medication and small surgeries.

Food Security and Nutrition

PUNTLAND

Achievements and Impact

- The World Food Programme (WFP) provided hot meals three times a day in the first reception centre in Bossaso.

Water and Sanitation

PUNTLAND

Achievements and Impact

- SRCS provided five volunteers two times during the reporting period to engage in hygiene and sanitation improvement at Bossaso first reception centre.

Working in partnership

- UNHCR Hargeisa met with the Somaliland Minister of MRRR on 9 November 2015, in order to discuss the registration/verification strategy, introduce the MOU on assets at Berbera reception centre for revision, cash-based assistance distribution to new arrivals as well as cases of dual nationality (Somali and Yemenis) erroneously registered in the ProGres database. The Minister has agreed to sign the verification strategy for the exercise to be carried out in February 2016. He will respond to UNHCR on the “persons of concern” certificates to be issued to Somali refugee returnees residing in Somaliland in the following week.
- It was agreed with the Somaliland New Arrivals Task Force members/MMTF members, that the New Arrival Task Force will be merged into the MMTF as of 1 December 2015.

FINANCIAL INFORMATION

Total funding received to date by UN agencies and NGOs in Somalia for the response to the Yemen situation is USD 9.5 M (approximately 14.8 % of total appealed budget of 64 M USD).

Agencies are very grateful for the financial support provided by donors who have contributed to their activities with unearmarked and broadly earmarked funds as well as for those who have contributed directly to the situation: [European Union](#) | [Italy](#) | [Japan](#) | [Sweden](#) | [United Kingdom](#) | [United States of America](#) | [Central Emergency Response Fund \(CERF\)](#)
