## PROFILE OF REGISTERED POPULATION

\* The 261 Nigeriens are living in Abala town

### a. Age and gender Breakdown

A population pyramid for Nigeriens. The x-axis represents the number of individuals, ranging from 0 to 2000. The y-axis represents age groups: 0-4, 5-11, 12-17, 18-59, and >60. The chart shows a high proportion of females in the 18-59 age group and a high proportion of males in the 0-4 age group. The title 'Nigeriens' is displayed in a box at the top center.

Age Group	Female (Approx. Count)	Male (Approx. Count)
>60	100	50
18-59	150	50
12-17	50	50
5-11	100	100
0-4	50	100
