However, it was resolved by adding one more training room. • It was observed during the distribution that female HH with children have problem carrying NFIs, that are unpacked. It would be helpful for these HH to provide them carry bag with the logo of Donors and IP. Some tips on useage of CSC cards and E-cards also can be printed on the carry bag for sensitization purposes

Save the Children	Mari Jarahiye	Zahle	0	361	0	0	65	There were problems in the lists received from UNHCR and which had been cross-checked to ensure that everyone was either unregistered or excluded. However, around 40% of the HH on our lists declared themselves to be registered. These have now been checked with UNHCR to verify how many of them are excluded, and double checked with WVI to ensure no duplication. We distributed cards and blankets to all the HH on our lists, as we had already publicised the lists in the ITS. Anyone found to have received winterisation assistance from another agency will not have their card loaded. As a general comment the distributions went very well, crowd control was easier as the teams gained more experience.

Save the Children	Kabellas Arab Dahnar	Zahle	0	952	0	0	163	Sending info to phone shared by multiple families caused problems, as some people received text messages inviting them to a distribution for which they were not on the list. Similarly, some on the list did not receive the information about the distribution via text message due to no phone or incorrect number. In Bekaa we are therefore publicising the distribution list (showing minimum beneficiary information to ensure identification) prior to the distribution to avoid dissatisfaction amongst those who believe they should be included.
Save the Children	Kherbet Daoud	Akkar	0	159			566	176
Save the Children	Kweshra	Akkar	0	0	0	1,134	313	Many people not in receipt of the support wish to register - despite full assessments of the site having been done beforehand. It was difficult to communicate to these people that registering does not guarantee they will receive the support (as they may already have received from another org, or be on our list for another ITS). This issue could have been minimised if the caseloads for agencies (particularly WVI, DRC and SCI) been divided geographically so that one agency covered an entire ITS, rather than multiple agencies distributing to the different beneficiary groups within the one settle.

Solidar Suisse	Rihane, Jezzine		0	267	0	0	51	Physical verification also completed. Many people coming to distribution not on our original list for winterisation, either eligible or non-eligible list. Unclear why - we will investigate each case and follow up to see if they can be included. Newly registered require follow up after 16 Dec to see if they can be included after they are added to the database. Had a few cases of one male head of household with multiple wives each having registration - need confirmation how to proceed with these cases.

SIF	Orayyi, Aley Caza			5,460			1,295	SIF also distributed 988 carpets and 841 weatherproofing kits. No major problems were encountered at the distribution site. Beneficiaries who didn't show from previous day came the next which explains the discrepancy in the figures. Weather conditions were quite rough the last two days of distribution, however many beneficiaries still came.
