The map displays the Zaatari refugee camp in Jordan, characterized by a dense grid of streets and small, color-coded buildings. The streets are labeled with names such as Lorries Street, Marketplace Street, Saudi Market Street, and Gravel Street 1 through 7. Key landmarks and facilities are marked, including the WFP Distribution Centre, NRC Distribution Point, and various schools and hospitals. The map also shows the location of the camp relative to the Jordanian border and the surrounding region. An inset map in the bottom left corner provides a broader geographical context, showing the camp's location in Jordan near the border with Syria.
