

KEY ACHIEVEMENT OF THE MONTH

7,691 of the most vulnerable families received
1.3 million USD in cash assistance.

HIGHLIGHTS:

All agencies distributed a total of around 1,3 million USD as cash assistance for multiple purposes to 7,691 of the most socio-economically vulnerable families.

All agencies distributed newcomer NFI kits to 23,800 persons (4,760 families).

A standard kit consists of one blanket and one mattress per person (5 blankets and 5 mattresses per family/kit on average), one kitchen set and one hygiene kit per family, and a baby kit for each child under the age of 2 years.

NEEDS ANALYSIS:

The sector has recently incorporated a multipurpose cash programme targeting those identified as the most socio-economically vulnerable refugees. The Cash Transfer modality has been developed to enable beneficiaries to respond to varied needs and to empower them to prioritise their expenditures in an effective, dignified manner.

This activity is strongly related to the targeting methodology that is still to be refined. In order to ensure the sustainability of this intervention, the targeted group shall be restricted to around 9% of the population. An inter-agency programme of this magnitude should be supported by strong data management and monitoring and evaluation systems.

In addition to the multipurpose cash targeting the most socio-economically vulnerable, the sector will retain the following interventions:

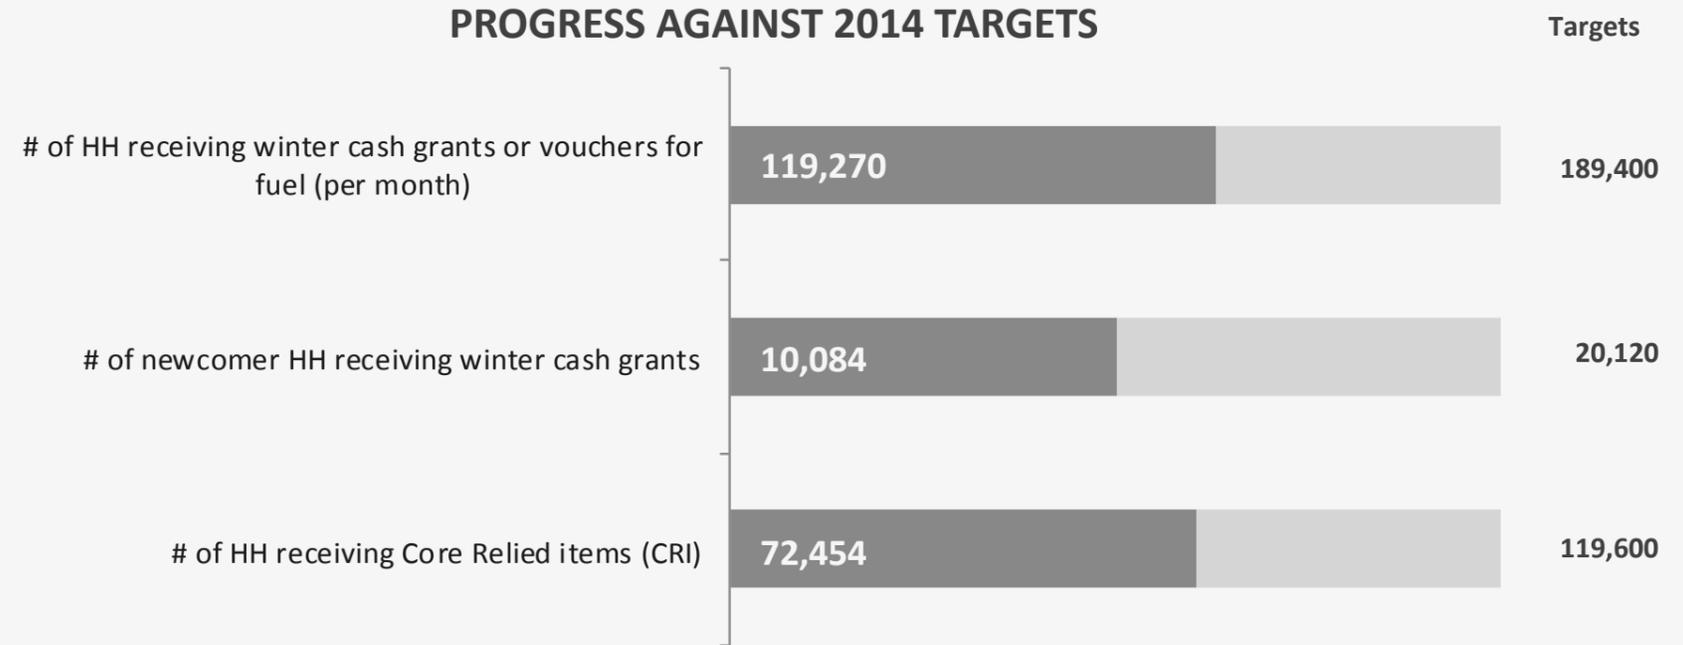

- Winterization assistance, through a combination of cash and in-kind components.
- Assistance to newcomers, by in-kind or cash transfer as appropriate.
- Contingency stocks to allow timely response to a potential influx or internal displacement
