Participatory assessment exercise targeting all refugee populations, including Syrian refugees have started in all areas of Turkey including Marmara, South-east, Eastern, Central Anatolia, Western coast regions with an age, gender and diversity approach. The focus of the assessments include protection themes such as community empowerment, youth engagement, SGBV and child labor. The assessment is carried out as a multi-sector and multi-partner manner under the lead of UNHCR including UN agencies, government authorities as well as NGOs. In the course of September, UNHCR continued to undertake capacity-building activities targeting government counterparts, service providers, humanitarian staff, civil society actors and refugees. The training topics included international protection, temporary protection, child protection, participatory assessments and community involvement. UNHCR and UNFPA, with involvement of government authorities and NGOs developed the inter-agency SOPs on GBV to be launched and rolled-out once finalized.

During the month of September, IOM Turkey's Emergency Case Management (ECM) project continued to provide tailored assistance to 454 vulnerable refugees and migrants (311 cases) in Turkey directly and through the partnership with a humanitarian NGO. The persons assisted were provided with medical, accommodation, transportation, material, legal and nutrition assistance.

IOM assisted 2,050 refugees with psychosocial support. IOM also provided legal assistance to 313 individuals through its partnerships. Legal awareness sessions focusing on civil registration procedures, including marriage, divorce and birth certificates were also provided.

NEEDS ANALYSIS:

Strengthening of a protection-sensitive registration system through verification activities carried out by the Government of Turkey remains as a key need and priority for 3RP partners. UNHCR continues to work closely with the authorities in support of establishing this systematic registration/verification mechanism for the identification of specific needs to ensure protection needs of refugees are met effectively.

In response to the need to empower communities, local NGOs and other partners and national institutions; promotion of self-reliance through development of meaningful skills for refugees as well as a focus on strengthening social cohesion and community stability in both refugee and host communities is prioritized. As such, effective coordination between different sectors including livelihoods and education is key.

3RP Partners continue to collaborate with the Government of Turkey in order to facilitate the creation of more outreach centers, strengthen refugee outreach volunteer networks and support community self-management, representation and leadership. These community assets are key to provide and facilitate preventative as well as comprehensive and holistic responsive protection activities relating to SGBV, child protection and persons with special needs. Community structures additionally play an important role in strengthening access to information through information dissemination in order to address the identified needs to ensure refugees' awareness of their rights, obligations, and ways to access protection.

Despite the protracted nature of the Syrian crisis, psychosocial support needs of refugees continue to be prioritized while 3RP partners continue to work towards enhancing existing mechanisms for the identification of refugees in need, and through strengthened support to relevant national institutions to expand psychosocial services.

3RP partners engage with all relevant Government interlocutors to strengthen and facilitate access to justice, remedies and legal assistance under national law for all refugees, in particular women and children at risk. Formal national Best Interest Determination (BID) procedures for especially unaccompanied children, as well as key protection issues including child labor and early marriages continue to be main protection areas of focus.
